Seeing the Lord's Glory Christopher B. The Tragic Vision and the Hebrew Tradition W. L. Humphreys, 2003-03-11 In this discerning study of the relationship of the tragic vision to the Hebrew W Lee Humphreys suggests various ways in which Israel confronted the power of the tragic vision at certain points in its tradition Humphreys demonstrates how tragedy the literary genre and the tragic vision maintain a delicate but vital balance between fate and law In conclusion he contends that the tragic vision finds fullest expression at points of radical dislocation in human history At these times the essential questions of existence are reopened rehearsed and relived as the tragic vision questions all previous answers and dogmatic claims to the meaning of life

Orientalism, Liberalism and Colonial Governmentality Sanjeev Kumar HM, 2025-04-30 This book explores the formation of contemporary South Asia as a geopolitical metaphor psycho-cultural concept and historical trope It traces the region's colonial past focusing on the evolution of its semantic and semiotic meanings particularly through the lens of Michel Foucault's methods of genealogy and archaeology The book examines how Orientalism and liberalism key elements of colonial power and epistemology shaped the conception of modern South Asia It argues that these discourses were not isolated but intertwined shaped by Edmund Burke's ideas on imperial rectitude the utilitarian reform agenda focused on improvement and Victorian notions of morality and civility Through this analysis the book shows how the British using the coercive power of colonialism produced knowledge about India blending

post Enlightenment values with perceptions of the colonized periphery This mix of metropolitan ideals and colonial narratives shaped the understanding of South Asia in ways that were deeply ideological and epistemic Ultimately the book asserts that the conception of modern South Asia was formed through a complex interplay of colonial knowledge which sought to frame the region within a distorted imperial worldview By mapping this intersection of power knowledge and culture the book provides a critical genealogy of the modern South Asian identity

The Messenger of the Lord in Early Jewish Interpretations of Genesis Camilla Hélena von Heijne, 2010-09-29 The focus of this book is on early Jewish interpretations of the ambiguous relationship between God and the angel of the Lord God in texts like Genesis 16 22 and 31 Genesis 32 is included since it exhibits the same ambiguity and constitutes an inseparable part of the Jacob saga The study is set in the wider context of the development of angelology and concepts of God in various forms of early Judaism When identifying patterns of interpretation in Jewish texts their chronological setting is less important than the nature of the biblical source texts For example a common pattern is the avoidance of anthropomorphism In Genesis the angel of the Lord generally seems to be a kind of impersonal extension of God while later Jewish writings are characterized by a more individualized angelology but the ambivalence between God and his angel remains in many interpretations In Philo's works and Wisdom of Solomon the Logos and Lady Wisdom respectively have assumed the role of the biblical angel of the Lord Although the angelology of Second Temple Judaism had developed in the direction of seeing angels as distinct personalities Judaism still had room for the idea of divine hypostases

The Art of Joaquín Torres-García Aarnoud Rommens, 2016-08-05 Intertwining art history aesthetic theory and Latin American studies

Aarnoud Rommens challenges contemporary Eurocentric revisions of the history of abstraction through this study of the Uruguayan artist Joaquín Torres García. After studying and painting for decades in Europe, Torres García returned in 1934 to his native home, Montevideo, with the dream of reawakening and revitalizing what he considered the true indigenous essence of Latin American art. Abstract Spirit: Rommens rigorously analyses the paradoxes of the painter's aesthetic, philosophical doctrine of Constructive Universalism as it sought to adapt European geometric abstraction to the Americas. Whereas previous scholarship has dismissed Torres García's theories as self-contradictory, Rommens seeks to recover their creative potential as well as their role in tracing the transatlantic routes of the avant-garde. Through the highly original method of reading Torres García's artworks as a critique on the artist's own writings, Rommens reveals how Torres García appropriates the colonial language of primitivism to construct the artificial image of pure pre-Columbian abstraction. Torres García thereby inverts the history of art; this book teases out the important lessons of this gesture and the implications for our understanding of abstraction today.
