

your home.

- 1 Power Door**  
Provides easy access for cleaning. The front panel displays power indicator and filter status lights. Safety interlocks power down the system if the door is opened while CleanEffects™ is on.
- 2 Pre-Filter**  
Captures larger particles and extends the collection cell cleaning interval.
- 3 Field Charger**  
Charges incoming particles so they adhere to the collection cells. This patented process is what allows CleanEffects to remove up to 99.98% of particles down to .1 micron that pass through it.
- 4 Reusable Collection Cells**  
Precisely engineered to capture particles down to .1 micron, while still remaining easy to clean. Simply vacuum or rinse with clean water to make them like new.
- 5 Painted Sheet Metal Cabinet**  
Heavy 18-gauge steel provides attractive and durable protection for electronics and filter components.

Trane's revolutionary, patented iFD charger delivers powerful cleaning with efficient airflow.

Most filtration systems work like a vacuum cleaner bag. Small holes let air pass through but not particles. Unfortunately, the more dirt these systems collect, the more clogged they become. This creates a bottleneck that reduces clean air output, robs system performance and reduces system life.

Trane CleanEffects™ uses a powerful, patented iFD corona field to charge incoming air, causing particles to adhere to the CleanEffects collection cells as air passes through. Since your furnace or air handler isn't struggling to work against a clogged filter, clean air flows freely. No other filtration system can compare.

Even the Trane CleanEffects collection element

is ground-breaking. Each layer is only 0.08 inches apart, with alternating charges, which makes for a stronger, more

effective collection field. What's more, the Trane CleanEffects element has eight times the collection surface of a standard electronic air cleaner, so it's vastly more efficient at providing clean air throughout your home.
