Motor Cycle, Motor Boat & Automobile Trade Directory ,1911 **Intra-Industry Trade** Cameron Thies,Timothy M. Peterson,2015-10-28 Intra Industry Trade calls for us to rethink what trade most often looks like and how it shapes global institutions fostering peace among states Cameron G Thies and Timothy M Peterson argue that our understanding of trade has not kept pace with its changing nature in the 21st century existing models rooted in Ricardo s theories regard trade uniformly as taking place between entities and countries that offer different commodities and operate according to the logic of comparative advantage Though this type of exchange does take place intra industry trade international trade of the same or similar commodities in which foreign and domestic brands compete is increasingly prevalent The authors argue that our current academic and policymaking focus on the total volume of trade rather than its composition is misplaced Trade composition matters not just because it gives us a fuller understanding of how trade works but also because intra industry trade increases the likelihood of positive institutional relations and cooperation between states To illustrate their point the authors examine the effects that intra industry trade has on Preferential Trade Agreement formation its tendency to lessen World Trade Organization disputes and militarized conflict and its ability to pave the way for new and fortified alliances
