Trade Tastes Commodity And Culture Exchange To 175:

Trading Tastes Erik Gilbert, Jonathan T. Reynolds, 2006 This book examines the general patterns and impact of transcontinental and transoceanic trade from antiquity to the present through its analysis of the production and long distance trade of four commodities spice or spices salt sugar and silk from ancient times to about 1750 C E In their introductions and in the primary sources that they have selected for the reader s analysis the authors demonstrate that until the revolution in long distance communication that began not much more than a century and a half ago trade was probably the single most important vehicle for disseminating ideas and other cultural elements from one people to another Back cover

The Lives in Objects Jessica Yirush Stern, 2016-12-22 In *The Lives in Objects* Jessica Yirush Stern presents a thoroughly researched and engaging study of the deerskin trade in the colonial Southeast equally attentive to British American and Southeastern Indian cultures of production distribution and consumption Stern upends the long standing assertion that Native Americans were solely gift givers and the British were modern commercial capitalists This traditional interpretation casts Native Americans as victims drawn into and made dependent on a transatlantic marketplace Stern complicates that picture by showing how both the Southeastern Indian and British American actors mixed gift giving and commodity exchange in the deerskin trade such that Southeastern Indians retained much greater agency as producers and consumers than the standard narrative allows By tracking the debates about Indian trade regulation Stern also reveals that the British were often not willing to embrace modern free market values While she sheds new light on broader issues in native and colonial history Stern also demonstrates that concepts of labor commerce and material culture were inextricably intertwined to present a fresh perspective on trade in the colonial Southeast

Manufacturing Culture Joseph Bizup, 2003 Bizup concludes with an examination of John Ruskin s and William Morris s efforts to counter this sort of rhetorical maneuvering by treating cultured manliness as a figure for the cooperative impulse they both hoped would replace competitive self interest as society s organizing value Jacket

No Useless Mouth Rachel B. Herrmann, 2019-11-15 Rachel B Herrmann s *No Useless Mouth* is truly a breath of fresh air in the way it aligns food and hunger as the focal point of a new lens to reexamine the American Revolution Her careful scrutiny inclusive approach and

broad synthesis all based on extensive archival research produced a monograph simultaneously rich audacious insightful lively and provocative *The Journal of American History* In the era of the American Revolution the rituals of diplomacy between the British Patriots and Native Americans featured gifts of food ceremonial feasts and a shared experience of hunger When diplomacy failed Native Americans could destroy food stores and cut off supply chains in order to assert authority Black colonists also stole and destroyed food to ward off hunger and carve out tenuous spaces of freedom Hunger was a means of power and a weapon of war In *No Useless Mouth* Rachel B Herrmann argues that Native Americans and formerly enslaved black colonists ultimately lost the battle against hunger and the larger struggle for power because white British and United States officials curtailed the abilities of men and women to fight hunger on their own terms By describing three interrelated behaviors food diplomacy victual imperialism and victual warfare the book shows that during this tumultuous period hunger prevention efforts offered strategies to claim power maintain communities and keep rival societies at bay Herrmann shows how Native Americans free blacks and enslaved peoples were useful mouths not mere supplicants for food without rights or power who used hunger for cooperation and violence and took steps to circumvent starvation Her wide ranging research on black Loyalists Iroquois Cherokee Creek and Western Confederacy Indians demonstrates that hunger creation and prevention were tools of diplomacy and warfare available to all people involved in the American Revolution Placing hunger at the center of these struggles foregrounds the contingency and plurality of power in the British Atlantic during the Revolutionary Era Thanks to generous funding from Cardiff University the ebook editions of this book are available as Open Access volumes from Cornell Open cornellpress.cornell.edu/cornell-open and other repositories

Making Better Coffee Edward F. Fischer, 2022-09-06 This book takes a behind the scenes look at the world of Third Wave coffee to uncover what makes a great coffee Traders stress the material conditions of terroir and botany but just as important are the social moral and political values that farmers roasters and consumers attach to the beans Third Wave roasters earnestly pursue a craft searching for new flavors while smallholding Maya farmers in Guatemala see coffee as part of a cycle of agricultural

regeneration as well as a source of extra income This book connects the quest for quality among Third Wave tastemakers in the United States to the lives and internet fueled aspirations of Maya producers showing how profits are made by artfully combining coffee's material and symbolic qualities *Beyond Vanity* Elizabeth L. Block, 2024-09-10 From the award winning author of *Dressing Up* a riveting and diverse history of women's hair that reestablishes the cultural power of hairdressing in nineteenth century America In the nineteenth century the complex cultural meaning of hair was not only significant but it could also impact one's place in society After the Civil War hairdressing was also a growing profession and the hair industry a mainstay of local national and international commerce In *Beyond Vanity* Elizabeth Block expands the nascent field of hair studies by restoring women's hair as a cultural site of meaning in the early United States With a special focus on the places and spaces in which the hair industry operated Block argues that the importance of hair has been overlooked due to its ephemerality as well as its misguided association with frivolity and triviality As Block clarifies hairdressing was anything but frivolous Using methods of visual and material culture studies informed by concepts of cultural geography Block identifies multiple substantive categories of place and space within which hair acted These include the preparatory places of the bedroom hair salon and enslaved peoples quarters as well as the presentation places of parties fairs stages and workplaces Here are also the untold stories of business owners many of whom were women of color and the creators of trendsetting styles like the pompadour and Gibson Girl bouffant Block's ground breaking study examines how race and racism affected who participated in the presentation and business of hair and according to which standards The result of looking closely at the places and spaces of hair is a reconfiguration that allows a new understanding of the cultural power of hair in the period
