Yet much of the iconic architecture and culture which so defines the city as we know it today from the Empire State Building
to the Pastrami sandwich only came into being in the 1930s in what was perhaps the most significant decade in the city s 400
year history After the roaring twenties the catastrophic Wall Street Crash and ensuing Depression seemed to spell disaster
for the vibrant city Yet in this era New York underwent an architectural economic social and creative renaissance under the
leadership of the charismatic mayor Fiorello La Guardia After seizing power he declared war on the mafia mobs running vast
swathes of the city attacked political corruption and kick started the economy through a variety of construction and
infrastructure projects In culture this was the age of the Harlem Renaissance championed by writers like Langston Hughes
the jazz age with the advent of Tin Pan Alley the Cotton Club and immortals such as Duke Ellington making his name in the
Big Apple Weaving these stories together Jules Stewart tells the story of an iconic city in a time of change **Annual**
