## **Philosophies Politiques Pour Notre Temps:**

*Philosophies politiques pour notre temps* Jean Picq, Yves Cusset, 2005-09 Mondialisation européenne et centralisation du retour de la violence extrême et l'exclusion sociale. Les vieux concepts comme ceux de souveraineté nationale sont brisés et de nouveau nous nous posons les questions centrales du politique. Comment vivre ensemble? Quel fondement pour l'autorité? Où commence et comment retrouver le contrat de nos vies? De Carl Schmitt et Leo Strauss à Karl Jaspers et Hannah Arendt, Raymond Aron et Maurice Merleau-Ponty, Michel Foucault et Emmanuel Lévinas, Jan Patočka, Jürgen Habermas, Paul Ricœur, Toni Negri ou encore Giorgio Agamben, voici un parcours initiatique traversant la pensée politique européenne si riche en enseignements pour notre temps. Auteur d'un rapport remarqué sur la tutelle, Jean Picq est magistrat à la Cour des Comptes. Il est également professeur à l'Institut des études politiques de Paris. Yves Cusset est professeur de philosophie et chargé de cours à l'

**The European Union and Global Governance** Mario Telò, 2009-02-25 This book explores and analyses the multidimensional influence the European Union exerts in the world focusing on its contribution to regional and global governance. Presenting a multidisciplinary approach with contributions by a panel of outstanding scholars from political science, economics, legal studies, philosophy and history, the book examines the EU as global player and international power in the making. The book is divided into three parts. Part I examines the influence of the EU as such on global governance, considering the Euro, the common market, the modernization policies for a knowledge society and its global role as both a multinational and regional democratic political system. Part 2 focuses on the EU's external policies, including trade, humanitarian aid, the environment, climate change, migration, terrorism, crime and EU foreign policy. Part 3 explores the EU as a global actor in the making and looks at issues including enlargement and the EU's neighbourhood policy. Inter-regionalism is critically addressed, the weight of the historical legacies of Europe in the world and its cosmopolitan perspectives as well. The European Union and Global Governance will be of vital interest to students and scholars of European Politics, International Relations and European Studies.

*Eric Weil. Philosophie et sagesse* Gilbert Kirscher, 1996  
Les philosophes du XX<sup>e</sup> siècle auront peu parlé de sagesse comme si la philosophie en ce siècle des idéologies était vaincue et du déchaînement de la violence extrême devait se contenter de constater le choc de toute qualité non seulement d'un discours philosophique cohérent et totalisant mais aussi d'une vie dans laquelle l'exigence philosophique s'incarnerait. À contre-courant, Eric Weil (1904-1977) qui a connu de près le régime de la dictature et de la violence de ce temps et qui en a eu autant sinon plus que tout autre une conscience aiguë aura opposé un tel discours qui s'acheva sur la pensée de la décision et la sagesse. Il fut question amicalement des différents aspects et difficultés de cette pensée lors de deux journées d'études organisées à Nice (1994) et à Lille (1995), deux lieux où Eric Weil a marqué de son enseignement et de sa présence de 1956 jusqu'à sa mort. Les textes recueillis reprennent en situant le philosophe en son temps sa conception de la violence de l'action de l'éducation, son interprétation des différentes significations historiques de la sagesse, sa compréhension enfin des rapports entre action et poésie.

philosophie sagesse      **Multinationals and the Constitutionalization of the World Power System** Jean-Philippe Robé,Antoine Lyon-Caen,Stéphane Vernac,2016-06-03 This collection offers a powerful and coherent study of the transformation of the multinational enterprise as both an object and subject of law within and beyond States The study develops an analysis of the large firm as being a system of organization exercising vast powers through various instruments of private law such as property rights contracts and corporations The volume focuses on the firm as the operational unit of governance within emerging systems of globalization whilst exploring in depth the forms within which the firm might be regulated as against the inhibiting parameters of national law It connects through the ordering concept of the firm in globalization the distinct regimes of constitutionalization national and international law The study will be of interest to students and academics in globalization and the regulation of multinational corporations as well as law economics and politics on a global scale It will also interest government leaders and NGOs working in the areas of MNE regulations

*Annales de philosophie politique, n°12. La Philosophie politique de G.W.F. Hegel ,      Auguste Comte and John Stuart Mill on Sexual Equality* Vincent Guillain,2009-08-31 Vincent Guillain uses the issue of sexual equality as a prism through which to examine important differences epistemological methodological and theoretical between Auguste Comte and John Stuart Mill He succeeds in showing how their differing conceptions of science and human nature influence and affect their respective approaches to philosophy and to the analysis of female in equality in particular Guillain shines a bright searchlight into long neglected aspects of both men s thinking for example Mill s proposal to construct an ethology or science of character formation and Comte s seemingly bizarre interest in phrenology and the ways in which these shaped their views of women s intellectual and political capacities Guillain s wide ranging study examines both men s major and minor works their correspondence with one another and the reasons for the final acrimonious break between two of the nineteenth century s most original and important thinkers      ,      **Critique philosophique, politique, scientific, littéraire** ,1886      *La philosophie enseignée à ma chouette* Yves Cusset,2007-12-08 A comme Amour extrait II n existe que deux grands types d amour l amour physique et l amour sexuel Pourtant un seul nom suffisait l origine d signer les deux Eros Mais Eros est devenu exclusivement sexuel le jour o l on a d couvert que sous le nom d amour la courtoisie du d sir Permettez moi Madame de vous baiser cachait en r alit la sauvagerie des pulsions Oh Madame t es trop bonne Ce qu un docteur viennois un peu fripon qui avait la dr le de manie d allonger ses patientes pour mieux d shabiller leur me r suma approximativement en ces mots la fin du XIXe si cle Le d sir c est l alibi bidon qu on s invente pour cacher nos pulsions Et l alibi bidon devint par un trange lapsus la libido Ah le voyou ont tent de r torquer les puritains choqu s mais de mani re trop timide de la sorte que leur plainte devint I love you Yves Cusset a 44 ans Professeur de philosophie il est aussi com dien et auteur de solos philosophiques qu il a pr sent s sur de nombreuses sc nes de France notamment Avignon      France's Long Reconstruction Herrick Chapman,2018-01-08 Postwar recovery required a transformation of France but what form it should take remained a

question Herrick Chapman charts the course of France's reconstruction from 1944 to 1962 offering insights into the ways the expansion of state power produced fierce controversies at home and unintended consequences abroad in France's crumbling empire   **Taking Pluralism Seriously** Félix Mathieu,2022-06-15 In so called post factual societies where public debates are undermined by their false or misleading premises philosophers who have reflected on diversity and pluralism can offer a critical and clarifying perspective through which to evaluate the statements of politicians and the media Félix Mathieu offers a theoretical empirical and normative analysis of the debates surrounding the accommodation of ethnocultural and societal diversity in contemporary liberal democracies With a close lens on Canada he looks at case studies in the United Kingdom and the Netherlands to test political leaders and analysts' claims of successful accommodation and pluralism Taking Pluralism Seriously provides a clear fair and helpful summary of the debate so far in order to understand the promises and pitfalls associated with theories of multiculturalism interculturalism federalism and multinational democracy investigating the conditions that might make it possible for different national communities to become fully empowered politically and culturally Taking Pluralism Seriously invites readers to explore questions of pluralism and accommodation and proposes political reforms to meet the challenges arising from diversity while considering some of the most pressing concerns complex societies are facing today   **De l'étude des idées politiques** Jean-Guy Prévost,2011-04-22T12:14:41-04:00 Faut-il voir en Machiavel un apôtre du mal un patriote ou publicain l'inventeur d'une science du politique ou une sorte de proto-fasciste? Locke est-il le prophète de l'accumulation capitaliste illimitée ou le précurseur du constitutionnalisme libéral ou un révolutionnaire motivé par ses convictions religieuses? Montesquieu l'avocat d'un retour à l'ordre fodal ou un critique radical de l'absolutisme? L'histoire des idées politiques nous confronte au moins à la complexité des textes et à la diversité des interpretations qui en sont offertes. Ce petit ouvrage veut en quelque sorte cartographier ce champ en présentant succinctement les principales voies de pensée en étude des idées politiques   **Ethics and Politics** Peter Kemp, Noriko Hashimoto, 2015 The main theme of volume 4 of Ecoethica is Ethics and Politics. In the first and second part the authors examine the sometimes conflictual relationship between ethics and politics from an eco ethical perspective. They investigate how our conceptions of both ethics and politics have been shaped historically as well as by today's technological conjuncture. The third part continues the discussion of French philosopher Paul Ricoeur (1913-2005) begun in volume 3. The essays here focus on how his conception of the connections and differences between ethics and politics led him to embrace certain paradoxes in politics and forced him to become suspicious of apolitical thinking   **Mélanges d'économie politique, d'histoire et de philosophie** Pellegrino Rossi, 1857

Pellegrino Luigi O. Rossi,1857      **Philosophie de l'histoire: hommage offert Maurice Lagueux** Sandra Lapointe,Louise Nadeau,2017-02-06T00:00:00-05:00 Depuis une trentaine d'années Maurice Lagueux professeur au Département de philosophie de l'Université de Montréal a œuvré dans différents domaines de la pensée et de la philosophie de l'architecture aux théories des sciences sociales en passant par la philosophie de l'économie et par la philosophie de l'histoire. Les recherches de Maurice Lagueux dans ce dernier domaine ont récemment donné lieu à la publication d'un ouvrage publié par les Presses de l'Université Laval. Actualité de la philosophie de l'histoire qui a permis de relancer le débat sur la philosophie épistématique de l'histoire et sur la métaphysique de l'histoire. Les études reunies ici ne sont limitées ni par le principe d'un rapport direct avec l'œuvre de Maurice Lagueux ni même par une connivence des approches entre ce dernier et les différents auteurs du collectif. Ce qui comptait était de regrouper un ensemble de travaux consacrés aux développements récents de la philosophie de l'histoire sans nous cantonner non plus aux débats des trente dernières années. Notre seul souhait était que ce recueil puisse sur le plan thématique offrir un panorama complet de cette discipline au XXe siècle et aujourd'hui. En résonance avec le pluralisme de son œuvre toutes les contributions qu'on lira ici veulent rendre hommage au travail fondamental de Maurice Lagueux. Une première partie est donc consacrée aux recherches de Maurice Lagueux. Une seconde partie rassemble les études consacrées aux questions de métaphysique de l'histoire et de rationalité. Une troisième partie présente les dimensions politiques de la philosophie de l'histoire. Enfin une dernière partie est dédiée aux enjeux hermétiques. Le lecteur disposera ainsi d'un tableau qui devrait être exhaustif et ne représente pas moins certainement l'une des synthèses les plus importantes publiées en français sur ce sujet.
