Rethinking History, Science, and Religion Bernard Lightman, 2019-10-03 The historical interface between science and religion was depicted as an unbridgeable conflict in the last quarter of the nineteenth century Starting in the 1970s such a conception was too simplistic and not at all accurate when considering the totality of that relationship This volume evaluates the utility of the complexity principle in past present and future scholarship First put forward by historian John Brooke over twenty five years ago the complexity principle rejects the idea of a single thesis of conflict or harmony or integration or separation between science and religion *Rethinking History Science and Religion* brings together an interdisciplinary group of scholars at the forefront of their fields to consider whether new approaches to the study of science and culture such as recent developments in research on science and the history of publishing the global history of science the geographical examination of space and place and science and media have cast doubt on the complexity thesis or if it remains a serviceable historiographical model *El-Hi Textbooks & Serials in Print*, 2003, 2003 Race, Gender & Class, 1996 **El-Hi Textbooks & Serials in Print**, 2000, 2000 **American Book Publishing Record**, 2001

Forthcoming Books Rose Arny, 2004 The Western Time of Ancient History Alexandra Lianeri, 2011-03-31 This book examines the conceptual and temporal frames through which modern Western historiography has linked itself to classical antiquity In doing so it articulates a genealogical problematic of what history is and a more strictly focused reappraisal of Greek and Roman historical thought Ancient ideas of history have played a key role in modern debates about history writing from Kant through Hegel to Nietzsche and Heidegger and from Friedrich Creuzer through George Grote and Theodor Mommsen to Momigliano and Moses Finley yet scholarship has paid little attention to the theoretical implications of the reception of these ideas The essays in this collection cover a wide range of relevant topics and approaches and boast distinguished authors from across Europe in the fields of classics ancient and modern history and the theory of historiography

Anarchism and Social Revolution Brian Williams, 2023-09-30 This monograph provides an update to anarchist philosophy advocating for a paradigm shift beyond neoliberalism and liberal democracy The book's central thesis has two components First it is argued that the maximization of equal liberty requires historical progress beyond the sovereign state system In contrast to Fukuyama's 1992 argument that liberal democracy is the end of history it is argued that liberalism contains two contradictions socioeconomic inequality and the shortcoming in equal liberty inherent to state power with the potential to propel history further This book's argument libertarian social democracy provides a framework to guide that final stage of history Second while anarchist philosophy offers a vision beyond the sovereign state it can be rendered more suitable as an alternative paradigm Specifically it is argued that anarchism is hampered by its traditional adherence to prefigurative strategy according to which the state cannot be used as a means to achieve a free and equal society By contrast libertarian social democracy incorporates a role for a democratic transitional state described here

as gradualist anarchism thus addressing mainstream Hobbesian concerns about bad anarchy where decentralization yields a net loss in equal liberty In so doing the book reveals the full spectrum of anarchist strategy from prefigurative to gradualist

Theory of WTO Law Chios Carmody,2023-12-21 Since 1995 there has been intense debate about whether the WTO Agreement is just Many observers point to the association of the treaty with intensive interdependence and the disruptive effects of globalization to assert that it is unjust Nevertheless justice in sovereign terms is different from justice in human terms This book puts forward a theory of WTO law to explain the difference and its implications for the international trading system It details how economic interdependence gives rise to an interdependent view of the relationship between different forms of justice and to interdependent obligations in WTO law It also suggests how the WTO dispute settlement system might have a residual value as a locus for transformative outcomes despite contemporary concerns about the system s political acceptability Taken together such insights may assist in identifying elements of a general theory of law *Cyclopædia of Biblical, Theological, and Ecclesiastical Literature* John McClintock,1874 **Cyclopaedia of Biblical, Theological, and Ecclesiastical Literature** John McClintock,1868 *The New Schaff-Herzog Encyclopedia of Religious Knowledge* Johann Jakob Herzog,Albert Hauck,Samuel Macauley Jackson,Charles Colebrook Sherman,George William Gilmore,1911
