Great Thinking Finace Bush, 2023-06-26 Thomas A Edison is quoted as saying Five percent of the people think ten percent of the people think they think and the other eighty five percent would rather die than think While it is a great time to be born because of the multifarious opportunities available in today's society it's ironic that the challenge to succeed has become more difficult because of a variety of contributing factors Although we are constantly challenged in this age to make a living and acquire means to survive our mission must be to thrive rather than merely survive which will require a great deal of thinking and planning from day to day Pastoring a multicultural church gives me the opportunity to meet diverse kinds of men and women who are looking to God for assistance and breakthroughs in different areas of their lives What is clear to me is that regardless of who these individuals are and how they struggle in their personal lives those who are willing to think through their challenges regardless of how they are classified find insightful ways to overcome They discover that a bridge to successful wholesome living is thinking It is apparent that those who are ready to think are usually those who will most likely succeed because they will include God's wisdom and take responsibility for their own lives This is regardless of their spiritual status race gender

class or color But those who fail to think and plan will continue to survive from the wind of the wings of those who do Great Thinkers The Bridge to Successful Living is about game changers and force multipliers who find ways through thinking to leave their prints on society regardless of odds and statistics
