**A Cultural History of the Sea in the Age of Enlightenment** Jonathan Lamb, 2023-02-09 This volume covers a period when Europeans were making great advances in the production and application of pure knowledge especially in the fields of navigation and discovery Thus European powers gained empires around the globe and the benefits that came with them while the rest of the world had to be content with supplying the raw material i e labour bullion wood plants ore of these good things This would not have been possible without navies and trading monopolies enterprises in which the freedom of the seas was disputed then gained or lost The essays in this volume range between three eras in the age of discovery first the excitement of seeing something for the first time second the experience of understanding the importance of the new thing and third the disillusion incident to reframing the prehistory of humanity and its destiny without the usual signposts of an anthropocentric journey from innocence to salvation via sin atonement and judgment The maritime contribution to all three eras was enormous not simply because it provided a mobile platform for the inspection of the new but because it proved experimentally that there were no extremes of heroic virtue or of brutal depravity to which humans might not tend when necessity or wantonness called for them Usually the evil side of humanity was assigned to savages but in the curiously singular person of the pirate a mirror image can be found of everyone really all people who lived on or by the sea were pirates of a sort Commencing as an age of rational certainties the Enlightenment gave way to the opposite The symmetries of the Linnaean system yielded to the endless process of mutation Buffon called speciation Rational government of the passions was succeeded by the cult of sensibility and spontaneous emotion The mathematical exactness of Cartesian knowledge was supplanted by imagination Sailors returned with pictures of mirages never seen before the products of Nature's own imagination that posed a question posed again here No doubt they are real but are they true
