Folklore and Social Media Andrew Peck, Trevor J. Blank, 2020-12-07 Ten years after the publication of the foundational edited collection Folklore and the Internet Andrew Peck and Trevor J Blank bring an essential update of scholarship to the study of digital folklore Folklore and Social Media A unique virtual hybridized platform for human communication social media is more dynamic ubiquitous and nuanced than the internet ever was by itself and the majority of Americans use it to access and interact with digital source materials in more advanced and robust ways This book features twelve chapters ranging in topics from legend transmission and fake news to case studies of memes joke cycles and Twitter hashtag campaigns and offers fresh insights on digital heritage and web archiving The editors and contributors take both the digital and folklore elements seriously because social media fundamentally changes folk practices in new though often invisible ways Social media platforms encourage hybrid performances that appear informal and ordinary while also offering significant space to obfuscate backstage behaviors through editing and retakes The result is that expression online becomes increasingly reminiscent of traditional forms of face to face interaction while also hiding its fundamental differences Folklore and Social Media demonstrates various ways to

refine methods and analyses in order to develop a better understanding of the informal and traditional dynamics that define an era of folklore and social media It is an invaluable addition to the literature on digital folklore scholarship that will be of interest to students and scholars alike Contributors Sheila Bock Peter M Broadwell Bill Ellis Jeana Jorgensen Liisi Laineste John Laudun Linda J Lee Lynne S McNeill Ryan M Milner Whitney Phillips Vwani Roychowdhury Timothy R Tangherlini Tok Thompson Elizabeth Tucker Kristiana Willsey *Official Master Register of Bicentennial Activities American Revolution Bicentennial Administration, 1975*
