The Directory of Video, Multimedia & Audio-visual Products ,1999 **The Exchange Rate in a Behavioral Finance Framework** Paul De Grauwe,Marianna Grimaldi,2018-06-05 This book provides an alternative view of the workings of foreign exchange markets The authors modeling approach is based on the idea that agents use simple forecasting rules and switch to those rules that have been shown to be the most profitable in the past This selection mechanism is based on trial and error and is probably the best possible strategy in an uncertain world the authors contend It creates a rich dynamic in the foreign exchange markets and can generate bubbles and crashes Sensitivity to initial conditions is a pervasive force in De Grauwe and Grimaldi s model It explains why large exchange rate changes and volatility clustering occur It also has important implications for understanding how the news affects the exchange rate De Grauwe and Grimaldi conclude that news in fundamentals has an unpredictable effect on the exchange rate Sometimes they maintain it alters the exchange rate considerably at other times it has no effectwhatsoever The authors also use their model to analyze the effects of official interventions in the foreign exchange market They show that simple intervention rules of the leaning against the wind variety can be effective in eliminating bubbles and crashes in the exchange rate They further demonstrate how quite paradoxically by intervening in the foreign exchange market the central bank makes the market look more efficient Clear and comprehensive The Exchange Rate in a Behavioral Finance Framework is a must have for analysts in foreign exchange markets as well as students of international finance and economics **Buying and Selling Multimedia Services** Gerry Souter,2017-09-29 This book is a comprehensive guide to buying and developing multimedia in the most cost effective manner Focusing on the human factors in producing multimedia rather than just the software Buying and Selling Multimedia Services is aimed at both buyers and sellers of multimedia services and draws on real world anecdotes war stories from project diaries and first hand experience to provide examples of the key ideas delineated within the book These are true stories culled from 25 years of working on both sides of the desk as a purchaser of creative services for a Fortune 500 company and as a producer and seller for one of the largest multimedia production shops in the country This book helps the multimedia producer and buyer to recognize flaws in past performances and to anticipate situations in future projects in order to save money and eliminate boardroom confrontations Accusations altercations and recriminations can be avoided and the bottom line enhanced with the production of an effective product targeted to a receptive audience Souter examines the
