Thank you for buying a Philips video recorder. This video recorder is one of the most sophisticated and easy-to-use video recorders (VCRs) on the market. Please take the time to read this operating manual before using your video recorder. It contains important information and notes regarding operation. The video recorder should not be turned on immediately after transportation from a cold to a hot area or vice versa, or in conditions of extreme humidity. Wait at least three hours after transporting the device. The video recorder needs this time in order to become accustomed to its new environment (temperature, air humidity, etc.).

This video recorder is used for the recording and playback of VHS videocassettes. Cassettes with the VHS-G label (VHS cassettes for camcorders) may only be used with a suitable adapter.

We hope you enjoy your new video recorder.

Important notes regarding operation

-  **Danger: High voltage!**
Do not remove the top cover as there is a risk of an electrical shock!
-  The video recorder does not contain any components that can be repaired by the customer. Please leave all maintenance work for qualified personnel.

-  Make sure that no objects or liquids enter the video recorder. Do not place glasses or the like on the video recorder. If liquid is spilt into it, immediately disconnect the video recorder from the power supply and call After-sales Service for advice.
-  Do not place any combustible objects on the device (candles, etc.).
-  Make sure that children do not place any foreign objects within the openings or ventilation slots.

-  These operating instructions have been printed on non-polluting paper.

-  Please make use of the facilities available in your country for disposing of the packaging of the video recorder in a way that helps to protect the environment.
