[The Moral Limits of the Criminal Law: Offense to others](#) Joel Feinberg, 1984 N this volume Feinberg focuses on the meanings of interest the relationship between interests and wants and the distinction between want regarding and ideal regarding analyses on interest and hard cases for the applications of the concept of harm Examples of the hard cases are harm to character vicarious harm and prenatal and posthumous harm Feinberg also discusses the relationship between harm and rights the concept of a victim and the distinctions of various quantitative dimensions of harm consent and offense including the magnitude probability risk and importance of harm

The Ethics of Legal Coercion J.D. Hodson, 2012-12-06 Are all of the commonly accepted aims of the use of law justifiable Which kinds of behavior are justifiably prohibited which kinds justifiably required What uses of law are not defensible How can the legitimacy or the illegitimacy of various uses of law be explained or accounted for These are questions the answering of which involves one in many issues of moral principle for the answers require that one adopt positions even if only implicitly on further questions of what kinds of actions or policies are morally or ethically acceptable The present work aimed at questions of these kinds is thus a study in the ethical evaluation of major uses of legal coercion It is an attempt to provide a framework within which many questions about the proper uses of law may be fruitfully discussed The framework if successful can be used by anyone asking questions about the defensibility of particular or general uses of law whether from the perspective of someone considering whether to bring about some new legal provision from the perspective of someone concerned to evaluate an existing provision or from that of someone concerned more abstractly with questions about the appropriate substance of an ideal legal system In addressing these and associated issues I shall be exploring the extent to which an ethics based on respect for persons and their autonomy can handle satisfactorily the problems arising here

Law in Philosophical Perspective Joel Feinberg, Hyman Gross, 1977

Postmodern Philosophy and Law Douglas E. Litowitz, 1997 The author presents a two tiered analysis that views postmodern legal thought as both a collective intellectual movement and as the work of particular theorists notably Friedrich Nietzsche Michel Foucault Jacques Derrida Francois Lyotard and Richard Rorty He concludes that even though postmodern thought does not give rise to a normative theory of right that can be used as a framework for deciding cases it can focus attention on genealogy and discourse and can empower those who have been denied a voice in the legal system Annotation copyrighted by Book News Inc Portland OR
