sustainable profitable art form **Posing for the Camera** Harriett Shepard, Lenore Meyer, 2010-10-28 This book is not a compilation of Do's and Don'ts. It seeks to organize thought on the part of photographers, directors, and models as to where posing begins and how it is accomplished. Step by step we will take the major and minor components of the posing figure and show how they function in relation to the camera, their possibilities, and their limitations. Once you know how the figure functions and the results thereby obtained, it is up to you to decide whether the pose is desirable or undesirable for the job at hand. For instance, a certain hand position may be generally recognized as awkward or conspicuous. This position would be undesirable if you wanted your picture to express grace and loveliness. On the other hand, it could very well serve to characterize a gangling teenager or call attention to an object or important copy in an advertisement. This book is not meant to impose our personal opinions upon you. Its intent is to increase your awareness of how symmetry of figure in pictures follows a consistent pattern. That pattern, when analyzed, establishes basic truths that beat like a motif throughout prize-winning and time-tested pictures. These truths are the fundamentals of which we speak. *Posing Techniques for Photographing Model Portfolios* Billy Pegram, 2008-01-01 With detailed discussions and eye-catching dynamic images, this guidebook shows professional photographers how to masterfully create beautiful images of a model to achieve any creative objective. Instructions illustrate basic poses as well as a host of subtle variations to provide photographers with an endless array of looks for editorial, fashion, shots, athletics, glamour, or nude photography, and shots designed to show curves, reveal personality, or showcase the hands, hair, or legs. This comprehensive resource also provides expert advice on conducting a successful session, how to work with the model, how to work with a support staff of image stylists, and tips for designing a high-quality portfolio. Additional lessons provide a start-to-finish analysis of four different shooting sessions, each with a different model and a different objective. Betty Cornell's Teen-Age Popularity Guide Betty Cornell, 2014-04-15 Available again for a whole new generation of readers, the original 1950s popularity guide that was the inspiration for teen author Maya Van Wagenen's memoir *Popular*. Vintage Wisdom for a Modern Geek.
