Barber, W.A. Cramer, J.H.C. Goedheer, J. Lavorel, R. Marcelle, B. Zilinskas, 2012-12-06 The present volume Excitation Energy and Electron Transfer in Photosynthesis is dedicated to a colleague and dear friend Warren L Butler I first met Warren when he visited the University of Illinois at Urbana during the early sixties he left an indelible impression on me as a person with warmth and enthusiasm Initially he was someone I looked to for guidance but later we also became friends Whenever I passed through Los Angeles I always telephoned Warren and often ended up taking a plane to San Diego to stay with two wonderful people Warren and his wife Lila His invitations could never be refused Below I reproduce the words of Herbert Stern on Warren L Butler's life these words express my sentiments as well as those of many of Warren's friends A lifetime of academic creativity crisscrossed by streaks of highbrow and lowbrow fun There is no summary to this adventure because we can neither make nor proclaim an end Warren has bequeathed us his garden of academic treasures It is ours to keep and tend There is lots of joy in our many recollections of Warren's life and sorrow's foil can only brighten the brightness that the joy radiates **Oswaal NEET (UG) 37 Years' Chapter-wise & Topic-wise Solved Papers Biology (1988-2024) for**
