Leslie,2014-07-18 This volume deals with the very novel issue of cyber laundering The book investigates the problem of cyber
laundering legally and sets out why it is of a grave legal concern locally and internationally The book looks at the current
state of laws and how they do not fully come to grips with the problem As a growing practice in these modern times and
manifesting through technological innovations cyber laundering is the birth child of money laundering and cybercrime It
concerns how the internet is used for washing illicit proceeds of crime In addition to exploring the meaning and ambits of the
problem with concrete real life examples more importantly a substantial part of the work innovates ways in which the
dilemma can be curbed legally This volume delves into a very grey area of law daring a yet unthreaded territory and scouring
undiscovered paths where money laundering cybercrime information technology and international law converge In addition
to unearthing such complexity the hallmark of this book is in the innovative solutions and dynamic remedies it postulates

PRESS FREEDOM IN POST-APARTHEID SOUTH AFRICA Emperor Thembu 2nd Votani Majola,2015-12-10 During the era
of apartheid in South Africa press was severely curtailed and subject to repressive laws The dawn of democracy liberated the
press in more ways than one The purpose of this study is to examine to what extent in practice a free press in South Africa is
able to report freely without hindrances Several challenges have been observed even during this era of democracy most
notably being the racism in the media among many others Several recommendations have been suggested in this study
suggesting methods that could be used to address these challenges Law Books in Print: Subject index A-I ,1997

Marle,2009-11-01 Refusal Transition and Post apartheid Law under editorship of professor Karin van Marle is indeed long
overdue As some of the authors in the relevant contributions to this publication rightly point out Van Marle s call for a
jurisprudence of generosity enabled through an ethics of refusal signals a new shift in South African jurisprudence Through
the lens of Van Marle s ethics of refusal and her jurisprudence of generosity the articles present fresh and meaningful

interpretations in respect of a range of very relevant topics ranging from property theory and a rethinking of human rights to the role of forgiveness and the dangers inherent in modern technology *The Criminal Responsibility of Senior Political and Military Leaders as Principals to International Crimes* Héctor Olásolo, 2009-05-15 As shown by the trials of Slobodan Milosevic Charles Taylor and Saddam Hussein the large scale and systematic commission of international crimes is usually planned and set in motion by senior political and military leaders Nevertheless the application of traditional forms of criminal liability leads to the conclusion that they are mere accessories to such crimes This does not reflect their central role and often results in a punishment which is inappropriately low in view of the impact of their actions and omissions For these reasons international criminal law has placed special emphasis on the development of concepts such as control of the crime and joint criminal enterprise also known as the common purpose doctrine which aim at reflecting better the central role played by senior political and military leaders in campaigns of large scale and systematic commission of international crimes The Rome Statute of the International Criminal Court and the case law of the ICTY and the ICTR have in recent years played a unique role in the achievement of this goal **Law Books Published** ,1995 **Essays on International Criminal Justice** Héctor Olásolo, 2012-01-09 Crimes of atrocity have profound and long lasting effects on any society The difference between triggering and preventing these tragic crimes often amounts to the choice between national potential preserved or destroyed It is also important to recognise that they are not inevitable the commission of these crimes requires a collective effort an organisational context and long planning and preparation Thus the idea of strengthening preventative action has taken on greater relevance and is now encompassed in the emerging notion of responsibility to prevent International courts and tribunals contribute to this effort by ending impunity for past crimes Focusing investigations and prosecution on the highest leadership maximises the impact of this contribution The ICC has an additional preventative mandate which is fulfilled by its timely intervention in the form of preliminary examinations Moreover when situations of atrocity crimes are triggered its complementarity regime incentivises states to stop violence and comply with their duties to investigate and prosecute thus strengthening the rule of law at the national level The new role granted to victims by the Rome Statute is key to the ICC's successful fulfilment of these functions This new book of essays which includes the author's unpublished inaugural lecture at Utrecht University examines these issues and places particular emphasis on the additional preventative mandate of the ICC the ICC complementarity regime the new role granted to victims and the prosecution of the highest leadership through the notion of indirect perpetration The work of Professor Olasolo breaks new ground in the academic field of international criminal law as an analysis of the system as a whole I therefore wish to express my congratulations for this work From the Foreword by Luis Moreno Ocampo Prosecutor International Criminal Court The Hague 27 April 2011 Professor Hector Olasolo's compilation provides an enormous source of easy reference to students academia and legal actors in the field of international law A look at the titles compiled in this volume demonstrates the present challenges to

international criminal justice From the Preliminary Reflections by Elizabeth Odio Benito Judge and Former Vice President International Criminal Court The Hague May 2011 This collection written by a brilliant and prolific scholar and practitioner of international criminal justice is an insightful and important contribution to the existing literature Each chapter in this collection is copiously footnoted and thoroughly researched making it an important reference tool for scholars and practitioners in the field Additionally and importantly the chapters explore without polemic areas of controversy and dissent and thoughtfully and scrupulously set forth arguments for and against particular doctrinal choices From the Introduction by Leila Nadya Sadat Henry H Oerschelp Professor of Law and Director Whitney R Harris World Law Institute Washington University School of Law Alexis de Tocqueville Distinguished Fulbright Chair Universit de Cergy Pontoise Paris Spring 2011
