✓ Exclusively available on IvyPanda

Both the artist's and the audience's political, religious, and social opinions are expressed via art. Since art is expensive, governments and churches are typically the only groups that can afford it. Political satire can oftentimes be risky territory for artists, particularly for those who reside under oppressive regimes. This paper focuses on exploring contemporary art as an example of social commentary using examples from Chapter 22.

Art frequently expresses the political, religious, or social beliefs of both the creator and the audience. Governments and religions are frequently the only groups that can afford art since it is expensive. Additionally, governments and churches utilize art as a means of expressing who they are, what they believe, and what they want other people to think because they want to have the most impact possible. Additionally, it's common for artists to wish to express strongly held opinions through their work. This presentation could have thousands of slides and still not come close to providing a complete review of the political, religious, and social art that is currently available. Various are only a few instances of how art has been applied to these circumstances.

According to Chapter 22 of the textbook, after World War II, the Nuclear Arms Race began, which was unimaginable to the artists who turned to satire to express their dread and disdain for contemporary conflict. A prominent example of this is found in Stanley Kubrick's film *Dr. Strangelove or: How I Learned to Stop Worrying and Love the Bomb*, which was inspired by the concept of "mutually assured destruction" (MAD) (Chapter 22 Art). Thus, artists after World War II used their talent to show a social commentary on the events.

As noted in Chapter 22, "the true artist can articulate a vision of what humanity can trust. In the midst of alienation, the artist can bring community, and in the midst of ugliness, beauty. The artist, in short, acts not only as a voice of protest but also as a voice of hope" ("Chapter 22 Overview"). For many years, the situation of politics and society has been the subject of artistic commentary. Artists have remarked both directly and subversively on everything from vanity and excess to corruption and greed through

**The Essay Film** Timothy Corrigan, 2011-08-01 Why have certain kinds of documentary and non narrative films emerged as the most interesting, exciting, and provocative movies made in the last twenty years? Ranging from the films of Ross McElwee *Bright Leaves* and Agnès Varda *The Gleaners and I* to those of Abbas Kiarostami *Close Up* and Ari Folman *Waltz with Bashir*, such films have intrigued viewers who at the same time have struggled to categorize them. Sometimes described as personal documentaries or diary films, these eclectic works are rather best understood as cinematic variations on the essay. So argues Tim Corrigan in this stimulating and necessary new book. Since Michel de Montaigne, essays have been seen as a lively literary category, and yet despite the work of pioneers like Chris Marker, seldom discussed as a cinematic tradition. *The Essay Film*, offering a thoughtful account of the long rapport between literature and film as well as novel interpretations and theoretical models, provides the ideas that will change this.

Nina Baym considers 130 novels by 48 women, focusing on the works of a dozen especially productive and successful writers. *Woman's Fiction* is a major work in nineteenth-century literature, reexamining changes in the literary canon and the meaning of sentimentalism while responding to current critical discussions of the body in literary texts.

**The Observing Self (Routledge Revivals)** Graham Good, 2014-08-01 First published in 1988, this title is a study of the essay as a literary genre, not just in terms of its general intellectual and literary history but as an exploration of the creative possibilities of the form. The rise of the essay is discussed in relation to the rise of the novel and the emergence of empiricism in science, but the main focus of Graham Good's study is on the inner workings of the essay itself. Drawing on criticism by Adorno and Lukács, Graham Good presents the genre as an expression of individualism freed from tradition and authority, in which the self constructs itself and its object through independent observation. Through analysis of the work of such essayists as Montaigne, Bacon, Virginia Woolf, T. S. Eliot, and George Orwell, the potential of the genre for independence and individualism is illustrated, and the essay is resituated as an intellectually challenging form of creative and critical writing.
