Social Media **Statistics Behind the Headlines** A. John Bailer, Rosemary Pennington, 2022-09-28 How do you learn about
what's going on in the world Did a news headline grab your attention Did a news story report on recent research What do
you need to know to be a critical consumer of the news you read If you are looking to start developing your data self defense
and critical news consumption skills this book is for you It reflects a long term collaboration between a statistician and a
journalist to shed light on the statistics behind the stories and the stories behind the statistics The only prerequisite for
enjoying this book is an interest in developing the skills and insights for better understanding news stories that incorporate
quantitative information Chapters in Statistics Behind the Headlines kick off with a news story headline and a summary of
the story itself The meat of each chapter consists of an exploration of the statistical and journalism concepts needed to
understand the data analyzed and reported in the story The chapters are organized around these sections What ideas will you
encounter in this chapter What is claimed Is it appropriate Who is claiming this Why is it claimed What makes this a story
worth telling Is this a good measure of impact How is the claim supported What evidence is reported What is the quality
strength of the evidence Does the claim seem reasonable How does this claim fit with what is already known How much does
this matter Considering the coverage Chapters close with connections to the Stats Stories podcast **Exploring the**
Impact of Social Media on Cyber security Threats and Mitigation Strategies Md Ishtiaq Hossain, 2025-09-07 The
increasing popularity and improvement of social media have brought us a lot of benefits including a convenience relationship
and a more responsive mass media But along with this metamorphosis there has been a proliferation of cyber security threats
that have increased both in size and complexity From phishing and malware to identity theft and disinformation social media
sites such as Facebook Instagram Twitter and TikTok are perfect platforms for a range of cyber threats AI Cyber criminals
have already started using various AI artificial intelligence tools to launch targeted attacks which include AI powered
phishing deep fakes and social engineering This ever changing nature of threats has made the role of defense and in an
offensive stance offense systems more and more critical This paper examines the forms of cyber threats that are emerging in
social media as well as the new risks that AI and other digital technologies have contributed and existing means to mitigate

cyber risks It highlights the need for user awareness multi factor authentication and monitoring of accounts for individuals as well as organizations Moreover it emphasizes the need for developing integrated proactive defenses to address the challenge of growing cyber threats in an increasingly social world Through real life examples and a look at advances in threat detection this paper identifies practical ways to address the increasing cyber risk resulting from social media use and achieve safer online interactions
