century research moves into new intellectual and geographic territories more diverse fields and global problematics

Judgment and Decision Making David Hardman, 2009-02-09 Judgment and Decision Making is a refreshingly accessible text that explores the wide variety of ways people make judgments. It examines assessments of probability, frequency and causation as well as how decisions are rendered under conditions of risk and uncertainty. Topics covered include dynamic everyday and group decision making, individual differences and the nature of mind and brain in relation to judgment and decision making. Offering up to date theoretical coverage including perspectives from evolutionary psychology and neuroscience, this volume has everything a psychology student needs for BPS accreditation whilst drawing out the practical applications for non psychology students with plentiful examples from business, economics, sport, law and medicine. The latest addition to the BPS Textbooks in Psychology series, this thorough text provides a succinct, reader-friendly account of the field of judgment and decision making.

An Introduction to Bilingualism Jeanette Altarriba, Roberto R. Heredia, 2008. The unique interdisciplinary approach which is reflected in the various topics covered gives students a global picture of the field. Topics range from early childhood intellectual development to educational and social cognitive challenges to the maturing bilingual brain.

American Sociological Theory Robert Bierstedt, 2013-09-24. American Sociological Theory: A Critical History discusses the history of American sociological theory by providing a selective and critical account of ten writers largely involved in the subject. Chapters 1 to 10 of this book are devoted to the contributions and investigations of ten acclaimed sociological theorists: William Graham Sumner, Lester Frank Ward, Charles Horton Cooley, Edward Alsworth Ross, Florian Znaniecki, Robert Morrison MacIver, Pitirim A. Sorokin, George A. Lundberg, Talcott Parsons and Robert K. Merton. The sociological label, legacy of Spencer, normative taboo, American references and the Holy Trinity (Marx, Durkheim and Weber) are also elaborated in this text. This publication is a good reference for students and researchers conducting work on general sociological theory.

The Lucifer Effect Philip Zimbardo, 2007-03-27. The definitive firsthand account of the groundbreaking research of Philip Zimbardo, the basis for the award-winning film *The Stanford Prison Experiment*. Renowned social psychologist and creator of the Stanford Prison Experiment, Philip Zimbardo explores the mechanisms that make good people do bad things: how moral people can be seduced into acting immorally and what this says about the line separating good from evil. The Lucifer Effect explains how and the myriad reasons why we are all susceptible to the lure of the dark side. Drawing on examples from history as well as his own trailblazing research, Zimbardo details how situational forces and group dynamics can work in concert to make monsters out of decent men and women. Here for the first time and in detail, Zimbardo tells the full story of the Stanford Prison Experiment, the landmark study in which a group of college student volunteers was randomly divided into guards and inmates and then placed in a mock prison environment. Within a week, the study was abandoned as ordinary college students were transformed into either brutal, sadistic guards or emotionally broken prisoners. By illuminating the psychological causes behind such disturbing metamorphoses, Zimbardo enables us to better understand a

variety of harrowing phenomena from corporate malfeasance to organized genocide to how once upstanding American soldiers came to abuse and torture Iraqi detainees in Abu Ghraib He replaces the long held notion of the bad apple with that of the bad barrel the idea that the social setting and the system contaminate the individual rather than the other way around This is a book that dares to hold a mirror up to mankind showing us that we might not be who we think we are While forcing us to reexamine what we are capable of doing when caught up in the crucible of behavioral dynamics though Zimbardo also offers hope We are capable of resisting evil he argues and can even teach ourselves to act heroically Like Hannah Arendt s Eichmann in Jerusalem and Steven Pinker s The Blank Slate The Lucifer Effect is a shocking engrossing study that will change the way we view human behavior Praise for The Lucifer Effect The Lucifer Effect will change forever the way you think about why we behave the way we do and in particular about the human potential for evil This is a disturbing book but one that has never been more necessary Malcolm Gladwell An important book All politicians and social commentators should read this The Times London Powerful an extraordinarily valuable addition to the literature of the psychology of violence or evil The American Prospect Penetrating Combining a dense but readable and often engrossing exposition of social psychology research with an impassioned moral seriousness Zimbardo challenges readers to look beyond glib denunciations of evil doers and ponder our collective responsibility for the world s ills Publishers Weekly A sprawling discussion Zimbardo couples a thorough narrative of the Stanford Prison Experiment with an analysis of the social dynamics of the Abu Ghraib prison in Iraq Booklist Zimbardo bottled evil in a laboratory The lessons he learned show us our dark nature but also fill us with hope if we heed their counsel The Lucifer Effect reads like a novel Anthony Pratkanis Ph D professor emeritus of psychology University of California

Biographical Dictionary of Psychology Antony J. Chapman, Wendy Conroy, Noel Sheehy, 2016-01-08 The Biographical Dictionary of Psychology provides biographical information and critical analysis of the influences and reception of over 500 people who have made a significant contribution to the field of psychology Written by an international team of contributors this volume charts the development of the practice of psychology worldwide from its emergence in the 1850s up to the present day Biographies range from important historical figures to those who have had a more recent impact on the field including Chris Argyris Donald Broadbent Kay Deaux Leon Festinger Sigmund Freud Erich Fromm Francis Galton Eleanor Gibson Doreen Kimur Ulric Neisser Jean Piaget Herbert A Simon B F Skinner Amos Tversky Entries are alphabetically organized and similarly structured for ease of access and allowing comparison of information Introductory biographical details cover main fields of interest nationality principal appointments honours and places and dates of birth and death This is followed by full bibliographic details of principal publications as well as secondary and critical literature which provide a useful route into further research Following on from there is an invaluable critical appraisal of the major achievements influences and reception of the psychologists themselves Thorough indexing allows the reader to access information by American Psychological Association subject division key concepts name and institution

Understanding
