**The Future of English in Asia** Michael O'Sullivan, David Huddart, Carmen Lee, 2015-10-05 This collection is unique in bringing together key thinkers on language and literature to discuss the future of English in Asia Many of the contributors are themselves responsible for important sub genres in English linguistics and literary studies and this

collection gives them the opportunity to respond to each other directly The different chapters also respond to different contemporary debates and emerging trends and discourses that are hugely important for the future of English language teaching in schools across Asia This volume is also ground breaking in bringing English literary studies and Applied English Linguistics together in the contemporary Asian context The Future of English in Asia includes studies on the following subject areas Cultural Translation in World Englishes Multilingual Education English Futures and the function of Literature English Literary Studies in Japan and English and Social Media in Asia Well into this century it appears that it is still very difficult to know what to expect when it comes to the future of English The future of English will continue to be determined by complex local contexts As it has in other parts of the world the future of English in Asia will continue to rely on the proliferation of its transformations as much as its hegemonic status This volume reflects the widespread acknowledgement that whatever future English has will inevitably be shaped by its fate in Asia The collection will be a welcome resource for scholars and students of English linguistics English literary studies and topics related to the teaching of English in Asia

### **Resources in Education ,1993      Persistent Malnutrition in Ethnic Minority Communities of Vietnam**

Nkosinathi V. N. Mbuya,Stephen J. Atwood,Phuong Nam Huynh,2019-07-03 Because malnutrition in early life significantly affects the physical and mental development of children addressing malnutrition is fundamental to the development of Vietnam s human capital Economic development of the nation depends on the strength resilience and intelligence of its workforce Governments dedicate millions of dollars annually to health and education recognizing that individual losses in productivity may run as high as 10 percent of lifetime earnings and that as much as 11 percent of GDP could be lost each year in Asia and Africa due to undernutrition The ethnic minority groups living mainly in the northern midlands and in the mountainous and central highlands regions are consistently more undernourished than the Kinh majority Despite decreases in stunting the prevalence of stunting among ethnic minority children is still twice that in the Kinh ethnic group There has been an overall decline in wasting of 1.7 percent between 2000 and 2011 although only the richest quintile showed a significant reduction 3.4 percent These data along with an overall decrease in the prevalence of wasting and stunting indicate an increase in nutrition inequality between 2000 and 2011 Moreover it is noteworthy that the ethnic minority groups constitute the majority of the undernourished populations in most of the 10 provinces with the highest rates of stunting among children under 5 years old This analytical report describes the very high rates of malnutrition among ethnic minority populations in Vietnam It assesses the determinants and causes using a causal framework and systems analysis reviews current commitments and policies directed at reducing disparities in malnutrition examines implementation of nutrition specific and nutrition sensitive interventions particularly those that require multisectoral coordination and collaboration draws conclusions based on the analysis and recommends how policies and programs can be strengthened to reduce inequities and fulfill the economic potential of all ethnic groups      **Manitoba School Journal ,1949      Establishing a**
