 richly illustrated study of sustainability innovation and entrepreneurship Specifically it examines the ways in which  
 governmental policies and practices modify the social conditions necessary to promote innovation in businesses and by so  
 doing impact economic development Exploring topics such as green innovation green customer capital smart cities green  
 entrepreneurship and environmental responsibility this book presents some of the most current research and best practices  
 in the field In today s global economy strategies policies and practices that address the negative effects of human activity on  
 the environment need to be incorporated into the business framework in order for companies to achieve a sustainable  
 competitive advantage Around the world such changes have already resulted in a broad range of products production  
 methods and technical features that ensure environmental protection At the same time the mass media s communication of a  
 deteriorating earth have motivated a growing number of citizens in both developed and developing nations to modify their  
 consumption habits towards more ecological products Consequently an increasing number of companies are reacting to these  
 changes in business and legal frameworks and consumer preferences by investing in new forms of green innovation or eco  
 innovation designed to promote both environmental and corporate sustainability For example Hewlett Packard eliminated

lead from its welding process Wal Mart reduced the emissions of their suppliers and Cisco Dell and IBM are investing in smart grids This volume showcases pioneering efforts among companies citizens and government agencies that are moving from theory to practice by placing sustainability at the core of their development strategies Congressional Record ,
