 Robert Merton,2018-04-27 *Social Science Quotations* has been prepared to meet an evident unmet need in the literature of  
 the social sciences Writings on the lives and theories of individual social scientists abound but there has been no fully  
 documented collection of memorable quotations from the social sciences as a whole The frequent use of quotations in  
 scientific as well as literary writings that are mere summaries or paraphrases typically fail to capture the full force of  
 formulations that have made quotations memorable This book of quotations invites the further reading or rereading of the  
 original texts beyond the quotations themselves Sills and Merton draw extensively upon the writings that constitute the  
 historical core of the social sciences and social thought those works with staying power often described as the classical texts  
 Many quotations have been drawn from these classical texts because the quotations contain memorable ideas memorably  
 expressed Both consequential and memorable these words have been quoted over the generations entering into the collective  
 memory of social scientists everywhere and at times diffusing into popular thought and into the vernacular as well This book  
 is useful to social scientists anthropologists economists historians political scientists psychiatrists psychologists sociologists  
 and statisticians and for all who want to learn or verify memorable formulations and phrases concerning social thought and  
 social theories It is particularly useful for graduate students taking courses that examine the history of their discipline
