The Rise of Trump Matthew C MacWilliams, 2016-09-28 The ascendance of Donald Trump to the presidential candidacy of the Republican Party has been both remarkable and to most commentators unlikely In The Rise of Trump America's Authoritarian Spring Matthew MacWilliams argues that Trump's rapid rise through a bewildered Republican Party hierarchy is no anomaly rather MacWilliams argues it is the most recent expression of a long standing theme in American political life the tendency and temptation to an ascriptive politics a political view that builds its basic case on ascribing to any relatively disempowered group whether defined by race ethnicity gender sexual orientation religious belief or other identifying category a certain set of qualities that justify discriminatory treatment The ascriptive tradition in American politics though longstanding has generally been kept to a relatively small minority a minority whose rights perhaps paradoxically have been protected by the principles of Madisonian democracy even though central to its worldview is the need and urgency of limiting the rights of some It has found champions in years past in such figures as Andrew Jackson Huey Long Joseph McCarthy and Pat Buchanan But in Donald Trump this tradition has found a significant new voice one emboldened by deeper shifts in the American political landscape Trump's swift and unsettling rise to the pinnacle of presidential politics may point toward the emergence
