Strom, Robert D. Strom, 2014-07-01 Teaching adolescents and learning from them is the paradigm elaborated throughout this second edition of *Adolescents in the Internet Age* The premise is based upon four assumptions 1 Adolescents have unique experiences that qualify them as the most credible source on what growing up is like in the current environment 2 Adolescents are more competent than many adults with tools of technology that will be needed for learning in the future 3 Adolescents and adults can support mutual development by adopting the concept of reciprocal learning and 4 The common quest of adolescents to gain adult identity could be attained before employment Expectations are the theme for every chapter The reason expectations are so important is because they influence goals determine priorities and are used to evaluate progress and achievements of individuals and institutions When teacher expectations correspond with the abilities and interests of students achievement and satisfaction are common outcomes In contrast if teachers expect too little student potential can be undermined There is also concern if expectations that students have for themselves surpass their abilities This occurs if teachers do not inform students about their deficits Multitasking doing too many things at the same time detracts from productivity Sharing accountability depends upon complimentary and attainable expectations that can be met by students teachers and parents To support appropriate expectations this book for secondary teachers and high school students seeking a broader understanding of their own generation is organized in four parts about aspects of learning and development 1 Identity expectations introduce traditional perspectives on adolescence changes related to sources of learning evolving emphasis of schools and ways to support motivation goal setting and formation of identity 2 Cognitive expectations examine mental abilities academic standards emergence of the Internet as a learning tool development of media literacy creative problem solving and encouragement of higher order thinking skills 3 Social expectations explore the need for giving greater attention to social development importance of teamwork skills involvement with social networking adoption of civil behavior school safety and values as a basis for ethical behavior and character 4 Health expectations center on decisions that

influence physical health well being and lifestyle choice Consideration is given to stress management emotional intelligence and risk assessment strategies for individual teenagers and the schools that they attend Global Clay John A.

Burrison,2017-12-04 For over 25 000 years humans across the globe have shaped decorated and fired clay Despite great differences in location and time universal themes appear in the world s ceramic traditions including religious influences human and animal representations and mortuary pottery In Global Clay Themes in World Ceramic Traditions noted pottery scholar John A Burrison explores the recurring artistic themes that tie humanity together explaining how and why those themes appear again and again in worldwide ceramic traditions The book is richly illustrated with over 200 full color cross cultural illustrations of ceramics from prehistory to the present Providing an introduction to different styles of folk pottery extensive suggestions for further reading and reflections on the future of traditional pottery around the world Global Clay is sure to become a classic for all who love art and pottery and all who are intrigued by the human commonalities revealed through art

[Media and Nigeria's Constitutional Democracy](#) Sam Amadi,Taye C. Obateru,Paul A. Obi,2023-02-06 In this edited collection contributors analyze how the media is navigating Africa s most populous nation Nigeria and its mediated democracy Despite its constitutional role recognizable as the fourth estate of the realm the Nigerian media has a history of confronting daunting challenges headlong This book captures an array of the challenges faced from British colonialism and military rule to democratic dispensation Ordinarily democracy is purposefully streamlined to elevate freedom of expression to an inalienable right and a necessary corollary of democracy Yet media freedom in Nigeria has been tortuous and nebulous and there is a paradoxical difference in how the state relies on the media for partnership while also obstructing accountable journalism that would hold the state and the media itself accountable The editors provide a poignant outlook of the onerous interactions and dialectics of media and democracy and the cascading state power Contributors argue for open democratic deliberations civic space and freedom of the press all rooted in public good Scholars of journalism political communication media studies African studies law democratic studies and political science will find this book of
