The Handbook of Social Control Mathieu Deflem, 2019-01-11 The Handbook of Social Control offers a comprehensive review of the concepts of social control in today's environment and focuses on the most relevant theories associated with social control. With contributions from noted experts in the field across 32 chapters, the depth and scope of the Handbook reflects the theoretical and methodological diversity that exists within the study of social control. Chapters explore various topics including theoretical perspectives, institutions and organizations, law enforcement, criminal justice, agencies, punishment and incarceration, surveillance, and global developments. This Handbook explores a variety of issues and themes on social control as being a central theme of criminological reflection. The text clearly demonstrates the rich heritage of the major relevant perspectives of social control and provides an overview of the most important theories and dimensions of social control today. Written for academics, undergraduate and graduate students in the fields of criminology, criminal justice, and sociology, The Handbook of Social Control is an indispensable resource that explores a contemporary view of the concept of social control.

Sociologie de la police - 2e éd. Fabien Jobard, Jacques de Maillard, 2024-03-27 La police au sens large nationale, municipale, privée, gendarmerie constitue un véritable acteur du jeu politique et un enjeu d'une centralité croissante dans le débat public. Mais elle est aussi un instrument de production de sens et de représentations politiques en ce qu'elle contribue à l'émergence de catégories descriptives qui participent de l'imaginaire collectif : crime crapuleux, outrage, racaille, violence collective, manifestation, ordre public en sont des exemples connus. La police est devenue un élément incontournable des sociétés contemporaines. Pourquoi et comment la police s'est-elle constituée ? Quelle est la nature de l'organisation policière et quels rapports entretient-elle avec les autorités politiques ? Qui sont les agents de police, leur origine, leur profil ? En quoi consistent leurs activités et quelles en sont les dimensions ? Quelles transformations et réformes sont aujourd'hui possibles ? Pour répondre à l'ensemble de ces questions, ce manuel sans équivalent propose la fois une sociologie et une science politique de la police. Riche en exemples, dépassant le seul cadre français, appuyé sur de nombreux travaux de terrain et une dense littérature, il vient clarifier de manière originale les rapports entre la police et le politique et interroger le fonctionnement de nos démocraties.

Towards a Vigilant Society Matthijs Gardenier, 2023-12-08 Towards a Vigilant Society sheds light on the emergence of a new society of vigilance in particular the actions of anti-migrant groups around Dover and Calais. Based on field research on both sides of the channel, it studies the dynamics of these groups midway between a social movement and vigilantism at these two key points in the international migration route between the European Union and the United Kingdom. In recent years, a series of anti-migrant

groups have been mobilising on both sides of the Channel to counter migrations Their actions range from demonstrations to violence against migrants And by staging their actions on social media which is an extraordinary sounding board these groups can build an online community and a mass audience influencing public opinion and even the migration policies of states This is an open access title available under the terms of a CC BY NC ND 4 0 International licence It is offered as a free PDF download from OUP and selected open access locations **Politique africaine n°170** Collectif,2024-02-22
