**Regenerating Africa** Mammo Muchie, Vusi Gumede, 2017-04-11 It has been long overdue to address the principal problems that Africa continues to have. How to bring real African solutions to these problems remains unresolved. Palaeontologists have discovered that Africa is the origin of humanity. Africa has also experienced the commodification of its humanity through slavery, colonialism and apartheid. The African continent has been influenced by a m range of races, cultures, religions, ethnic nationalities, making the project of how the differences can be managed to forestall conflict and promote the unity of the current 54 states to turn the cacophony of noises into a single voice that can protect Africa a difficult challenge. This book on Regenerating Africa: Bringing African Solutions to African Problems addresses why Africans must come together and try to address their own problems. They must look back to the spiritual struggle and knowledge heritage to re-imagine and innovate a new Africa with leadership, governance systems and institutions that can address the security and well-being, the employment, social inclusion, poverty eradication and the equality of the people. In fact, the key problem to find a solution is how to Africanise those that originated from Africa and those that became settlers with different racial, cultural, religious, linguistic and ethnic variations. How to manage inter-African relations. How the settlers from the colonial legacy, the apartheid legacy, the Arabs in Africa and the varied tribes within Africans can all share being Africanised above all else is a real challenge to bring lasting solutions to Africa's enduring problems. This book is one of the few books that addresses the real problems Africa continues to face by suggesting solutions which policy makers and all Africans must learn and never ignore but use to advance a free, united, renascent, proud and dignified independent Africa in this unpredictable time the world is going through. The contributors address in the book how African solutions to African problems in the current global context to create a sustainable African future can be thought, designed and engineered to advance the well-being of people and nature for all. The African Unity for Renaissance series of conferences that over 10 partners contributed to run is the true source for generating the quality papers that have been peer-reviewed to constitute the contributions in the book to make African solutions to African problems in reality and not just in talk.

**Making Public in a Privatized World** David A. McDonald, 2016-02-15 How do we provide effective public services in a deeply neoliberal world? In the wake of the widespread failure of privatisation efforts, societies in the global south are increasingly seeking progressive ways of recreating the public sector. With contributors ranging from cutting-edge scholars to activists working in health, water and energy provision and with case studies covering a broad spectrum of localities and actors, *Making Public in a Privatized World* uncovers the radically different ways in which public services are being reshaped from the grassroots up. From communities holding the state accountable for public health in rural Guatemala to waste pickers in India and decentralized solar electricity initiatives in Africa, the essays in this collection offer probing insights into the complex ways in which people are building genuine alternatives to privatization while also illustrating the challenges which communities face in creating
