The Sacred Project of American Sociology Christian Smith,2014-07-03 Counter to popular perceptions contemporary American sociology is and promotes a profoundly sacred project at heart Sociology today is in fact animated by sacred impulses driven by sacred commitments and serves a sacred project Sociology appears on the surface to be a secular scientific enterprise its founding fathers were mostly atheists Its basic operating premises are secular and naturalistic Sociologists today are disproportionately not religious compared to all Americans and often irreligious The Sacred Project of American Sociology shows counter intuitively that the secular enterprise that everyday sociology appears to be pursuing is actually not what is really going on at sociology s deepest level Christian Smith conducts a self reflexive tables turning cultural and institutional sociology of the profession of American sociology itself showing that this allegedly secular discipline ironically expresses Emile Durkheim s inescapable sacred exemplifies its own versions of Marxist false consciousness and generates a spirited reaction against Max Weber s melancholically observed disenchantment of the world American sociology does not escape the analytical net that it casts over the rest of the ordinary world Sociology itself is a part of that very human very social often very sacred and spiritual world And sociology s ironic mis recognition of its own sacred project leads to a variety of arguably self destructive and distorting tendencies This book re asserts a vision for what sociology is most important for in contrast with its current commitments and calls sociologists back to a more honest fair and healthy vision of its purpose

Family Ties Gary Wyatt, 2008 Relying on a decade long participant observation study this book focuses on the salience of parent child relationships for home schooling Those experiences with traditional schools emerge as a major

motive for home schooling The quality of the relationships that develop between parents and children are the major predictor of a successful home schooling experience Comparing the socialization between traditional schooling and home schools Family Ties Relationships Socialization and Home Schooling investigates significant controversies in these two separate environments Professor Gary Wyatt is able to represent a parent with both experiences and contends to dispel the typical home schooling critiques The efforts of home schooling parents to negotiate favorable identities with others and the techniques used to manage the anxiety associated with this unconventional lifestyle are explored *Alternative Sociologies of Religion* James V Spickard, 2018-03-06 Uncovers what the sociology of religion would look like had it emerged in a Confucian Muslim or Native American culture rather than in a Christian one Sociology has long used Western Christianity as a model for all religious life As a result the field has tended to highlight aspects of religion that Christians find important such as religious beliefs and formal organizations while paying less attention to other elements Rather than simply criticizing such limitations James V Spickard imagines what the sociology of religion would look like had it arisen in three non Western societies What aspects of religion would scholars see more clearly if they had been raised in Confucian China What could they learn about religion from Ibn Khaldun the famed 14th century Arab scholar What would they better understand had they been born Navajo whose traditional religion certainly does not revolve around beliefs and organizations Through these thought experiments Spickard shows how non Western ideas understand some aspects of religions even of Western religions better than does standard sociology The volume shows how non Western frameworks can shed new light on several different dimensions of religious life including the question of who maintains religious communities the relationships between religion and ethnicity as sources of social ties and the role of embodied experience in religious rituals These approaches reveal central aspects of contemporary religions that the dominant way of doing sociology fails to notice Each approach also provides investigators with new theoretical resources to guide them deeper into their subjects The volume makes a compelling case for adopting a global perspective in the social sciences *The American Psychiatric Publishing Textbook of Psychiatry* Robert E. Hales, 2008 Its previous edition hailed as the best reference for the majority of practicing psychiatrists Doody's Book Reviews and a book that more than any other provides an approach to how to think about psychiatry that integrates both the biological and psychological JAMA The American Psychiatric Publishing Textbook of Psychiatry has been meticulously revised to maintain this preeminence as an accessible and authoritative educational reference and clinical compendium It combines the strengths of its three editors Robert Hales in clinical and community psychiatry Stuart Yudofsky in neuropsychiatry and new co editor Glen Gabbard in psychotherapy in recruiting outstanding authors to summarize the latest developments in psychiatry and features 101 contributors 65 of whom are new to this edition The book boasts a new interior design with more figures and color throughout to aid comprehension Each chapter ends with 5 10 key points 5 10 recommended readings and helpful Web sites not only for the clinician but also for patients and family members The book

Reclaiming Class Vivyan Adair, Sandra Dahlberg, 2003-04-25 Reclaiming Class offers essays written by women who changed their lives through the pathway of higher education Collected they offer a powerful testimony of the importance of higher learning as well as a critique of the programs designed to alleviate poverty and educational disparity The contributors

explore the ideologies of welfare and American meritocracy that promise hope and autonomy on the one hand while also perpetuating economic obstacles and indebtedness on the other. Divided into the three sections *Reclaiming Class* assesses the psychological, familial and economic intersections of poverty and the educational process. In the first section, women who left poverty through higher education recall their negotiating the paths of college life to show how their experiences reveal the hidden paradoxes of education. Section two presents first person narratives of students whose lives are shaped by their roles as poor mothers, guardian siblings and daughters, as well as the ways that race interacts with their poverty. Chapters exploring financial aid and welfare policy, battery and abuse, and the social constructions of the poor woman finish the book. Offering a comprehensive picture of how poor women access all levels of private and public institutions to achieve against great odds, *Reclaiming Class* shows the workings of higher learning from the vantage point of those most subject to the vicissitudes of policy and reform agendas.

Other Worlds John R. Heapes, 2014-02-21

Who hasn't asked: What happens to me after I die, and/or Are we alone in the universe? *Other Worlds: UFOs, Aliens, and the Afterlife* takes readers on a journey into other galaxies and into a different time—a time after all of their tomorrows. How are the societies organized on other planets and in the afterlife? This book answers this question with a new approach in the UFO and the Near Death Experience fields. As readers take this trip, they will wonder if there are universal laws governing the societies of intelligent beings, regardless of where they reside in existence. Are humans projecting into foreign forms their own beliefs about how societies should be arranged on Earth? Why study such ethereal and controversial material? We always learn about ourselves when we study those who are different from us, whether those beings are real or not. Anyone who has read a good book of fiction knows the validity of this point. Consider how many teenagers identify with the characters in the *Hunger Games* books. What follows is the sociological perspective. We will explore institutions such as marriage and the family, social classes and culture. We will

determine the sex of alien travelers as well as the occupations of their human witnesses We will learn what the afterlife looks like and discover what messages deceased beings deliver to humans

Pengantar Sosiologi Untuk Mahasiswa Tingkat Dasar Khaerul Umam Noer, 2021-07-31 Buku ini adalah akumulasi kekesalan dan pengalaman penulis sebagai pengajar matakuliah Pengantar Sosiologi Salah satu tantangan utama adalah bagaimana menjelaskan jalinan konsep dan teori dalam sosiologi dengan cara yang paling sederhana Jika saya mengatakan interaksi sosial semua orang melakukan itu tanpa disadari Namun memahami interaksi sosial secara teoritik adalah hal yang amat berbeda Sama halnya dengan berbagai konsep lain misalnya stratifikasi sosial konflik sosial dan lain sebagainya Belajar dari pengalaman bahwa mahasiswa yang saya temui mengalami kesulitan mendasar untuk melihat keterkaitan antarteori yang boleh jadi disebabkan karena dua hal Pertama boleh jadi karena mahasiswa yang saya temui bukan dari major sosiologi Kedua boleh jadi karena sebagai generasi Z mahasiswa ini cenderung untuk selalu kembali ke dunia maya untuk mencari jawaban Jika saya bertanya tentang konsep interaksi sosial maka mereka hanya menjelaskan bahwa interaksi adalah hubungan antar individu Mereka tidak melihat atau tidak merasa perlu melihat bagaimana interaksi berkaitan dengan pelapisan sosial dengan gejala bahasa dengan relasi kekuasaan Maka tidak heran jika mereka memahami konsep sepotong sepotong tanpa melihat keterkaitan antar konsep Menjawab kedua tantangan tersebut maka saya memilih untuk menjadikan buku ini bukan sebagai buku pegangan melainkan pintu masuk untuk masuk ke dalam belantara konsep dan teori dalam sosiologi Keputusan saya untuk menjelaskan berbagai konsep dan teori dalam satu payung besar yang kemudian ditarik ke dalam pecahan dan kerangka yang lebih kecil adalah cara saya untuk menjelaskan bagaimana keterkaitan antara satu konsep dengan konsep lainnya
