Socrates, Buddha, Confucius, Jesus Karl Jaspers, Ralph Manheim, 1966-03 A part of Jaspers's planned universal history of philosophy focusing on the four paradigmatic individuals who have exerted a historical influence of incomparable scope and depth Edited by Hannah Arendt Index Translated by Ralph Manheim **Socrates, Buddha, Confucius, Jesus** Hannah Arendt, 1957 *Socrates, Buddha, Confucius, Jesus* Professor Karl Jaspers, 2011-06-01 2011 Reprint of 1962 Edition Full facsimile of the original edition not reproduced with Optical Recognition Software Of all the great minds that have influenced contemporary thought these four have had the most profound and lasting impact Jaspers here provides much insight into these four paradigmatic figures who taught us how to live as well as how to think The reader will see them as both individual personalities and seminal philosophers of vital importance to this day *Intercultural Modes of Philosophy, Volume One* Eli Kramer, 2021-08-30 Until rather recently philosophy when practiced as a way of life was for most a communal enterprise of mutually reinforced personal cultivation In these times of social isolation including in academic philosophy itself it is time yet again to revitalize this lost but vital intercultural mode of philosophy This volume characterizes a neglected communal mode of philosophy the philosophical community by describing the constellation of metaethical principles general axiological cultural and dialectical that cultivates its values The book draws on examples from across the globe and history including interviews of adherents of living philosophical communities **Routledge History of Philosophy Volume VIII** Richard Kearney, 2003-12-23 Continental philosophy as it has emerged in the twentieth century is less a seamless fabric than a patchwork of diverse strands Phenomenology hermeneutics existentialism structuralism critical theory deconstruction these are some of the salient movements which have developed in continental Europe between 1900 and the 1990s though their influence is by no means confined to geographic location Continental thought has proved highly exportable circulating far beyond the frontiers of Europe to provoke strong responses in the intellectual world at large The fifteen articles in this volume outline and assess some of the issues and experiments of continental philosophy The first five span the twin movements of phenomenology and existentialism running from Husserl and Heidegger to Sartre Merleau-Ponty and Levinas Subsequent essays deal with specific currents of continental thought in such areas as science Marxism linguistics politics aesthetics feminism and hermeneutics A final chapter on postmodernism highlights the manner in which so many concerns of continental thought culminate in a radical anti-foundationalism This volume provides a broad scholarly introduction to this period for students of philosophy and related disciplines as well as some original interpretations of these authors It includes a glossary of technical terms and a chronological table of philosophical scientific and other cultural events *Socrates, Buddha, Confucius, Jesus* Jaspers, 1997-07-01 **Ethics in a Time of Barbarism** Carl P. Ellerman, 2025-08-19 During a time of widespread intraspecific aggression and barbaric captivity throughout the planet this study of the ethics of survival asks the burning question At the extremes of experience when captives are struggling to survive is there a line at which the

moral judgment of survival behavior ceases Stated differently Are there times in the lives of humans when the valiant attempt to maintain moral scruples clashes with the way the world is moments when moral pretension moral aspiration and the expectation of moral agency are absurd Putting the burning question under strain Carl P Ellerman offers testimony from the confessional publications of survivors who were subjected to life threatening barbaric experiences He also critically scrutinizes the competing ethical perspectives of Hume Kant Nietzsche and the U S Department of Defense Military Code of Conduct to show how the ethics of survival has been handled philosophically and militarily Empirical evidence from Evolutionary Biology Primatology and the Neurosciences is interwoven to advance a biological realism in the ethics of survival Readers are also invited to undertake an honest self examination using active imagination to answer unsparing questions as if each reader were wearing the shoes of a captive who abjures the fictions of an ideal self

Living without God: A Multicultural Spectrum of Atheism Sanjit Chakraborty, Anway Mukhopadhyay, 2022-11-16 This book deals with the intricate issue of approaching atheism methodologically as well as conceptually from the perspective of cultural pluralism What does atheism mean in different cultural contexts Can this term be applied appropriately to different religious discourses which conceptualize God gods Goddess goddesses and also godlessness in hugely divergent ways Is my God the same as yours If not then how can your atheism be the same as mine In other words this volume raises the question Is it not high time that we proposed a comparative study of atheism s alongside that of religions rather than believing that atheism is centered in the Western experience Apart from answering these questions the book highlights the much needed focus on the philosophical negotiations between atheism theism and agnosticism The fine chapters collected here present pluralist negotiations with the notion of atheism and its ethical theological literary and scientific corollaries Previously published in Sophia Volume 60 issue 3 September 2021 Chapters Religious Conversion and Loss of Faith Cases of Personal Paradigm Shift and On Being an Infidel are available open access under a Creative Commons Attribution 4 0 International License via link.springer.com

The Last Cannibals Ellen B. Basso, 2010-07-22 An especially comprehensive study of Brazilian Amazonian Indian history *The Last Cannibals* is the first attempt to understand through indigenous discourse the emergence of Upper Xing society Drawing on oral documents recorded directly from the native language Ellen Basso transcribes and analyzes nine traditional Kalapalo stories to offer important insights into Kalapalo historical knowledge and the performance of historical narratives within their nonliterate society This engaging book challenges the familiar view of biography as a strictly Western literary form Of special interest are biographies of powerful warriors whose actions led to the emergence of a more recent social order based on restrained behaviors from an earlier time when people were said to be fierce and violent From these stories Basso explores how the Kalapalo remember and understand their past and what specific linguistic psychological and ideological materials they employ to construct their historical consciousness Her book will be important reading in anthropology folklore linguistics and South American studies

[From World Religions to Axial Civilizations and](#)

Beyond Saïd Amir Arjomand, Stephen Kalberg, 2021-03-01 The post World War II idea of the Axial Age by Karl Jaspers and as elaborated into the sociology of axial civilizations by S N Eisenstadt in the later twentieth and early twenty first centuries continues to be the subject of intense scholarly debate Examples of this can be found in recent works of Hans Joas and Jürgen Habermas In *From World Religions to Axial Civilizations* and *Beyond* an internationally distinguished group of scholars discuss advance and criticize the Jaspers Eisenstadt thesis and go beyond it by bringing in the critical influence of Max Weber's sociology of world religions and by exploring intercivilizational encounters in key world regions The essays within this volume are of unusual interest for their original analysis of relatively neglected civilizational zones especially Islam and the Islamicate civilization and the Byzantine civilization and its continuation in Orthodox Russia *Uncertain* Maggie Jackson, 2023-11-07 A Selection of The Next Big Idea Club Maggie Jackson's incisive and timely book is a provocative exploration of the surprising benefits of not knowing and shows how this state of mind can jolt us from intellectual complacency and foster creativity resilience and mutual understanding *Uncertain* is a triumphant ode to the wisdom of being unsure Daniel H Pink 1 New York Times bestselling author of *The Power of Regret Drive* and *When With* cutting edge science and insights both surprising and practical *Uncertain* shows how cultivating an open and unsettled mindset can help us to spark curiosity compassion and creativity Gretchen Rubin New York Times bestselling author of *The Happiness Project* and *Life in Five Senses* remarkable and persuasive *Library Journal* A revolutionary guide to flourishing in times of flux and angst by harnessing the overlooked power of our uncertainty In an era of terrifying unpredictability we race to address complex crises with quick sure algorithms bullet points and tweets How could we find the clarity and vision so urgently needed today by being unsure *Uncertain* is about the triumph of doing just that A scientific adventure tale set on the front lines of a volatile era this epiphany of a book by award winning author Maggie Jackson shows us how to skillfully confront the unexpected and the unknown and how to harness not knowing in the service of wisdom invention mutual understanding and resilience Long neglected as a topic of study and widely treated as a shameful flaw uncertainty is revealed to be a crucial gadfly of the mind jolting us from the routine and the assumed into a space for exploring unseen meaning Far from luring us into inertia uncertainty is the mindset most needed in times of flux and a remarkable antidote to the narrow mindedness of our day In laboratories political campaigns and on the frontiers of artificial intelligence Jackson meets the pioneers decoding the surprising gifts of being unsure Each chapter examines a mode of uncertainty in action from creative reverie to the dissent that spurs team success Step by step the art and science of uncertainty reveal being unsure as a skill set for incisive thinking and day to day flourishing **Philosophy for Children in Confucian Societies** Chi-Ming Lam, 2019-11-20 This book contributes to the theory and practice of Philosophy for Children P4C with a special emphasis on theoretical and practical issues confronting researchers and practitioners working in contexts that are strongly influenced by Confucian values and norms It includes writings by prominent P4C scholars from four Confucian societies viz Mainland China Hong Kong Taiwan

and Japan These writings showcase the diversity of the P4C model providing a platform for researchers and practitioners to tell their stories in their own Confucian cultural contexts The research stories in the first part of the book are concerned with assessing the impact of traditional Confucian norms promoting critical thinking reconstructing the notion of community of inquiry creating moral winds integrating philosophy into the school curriculum and localizing teaching methods and materials Four issues are discussed in the second part of the book the tension between Confucianism and powerful thinking cultural challenges for practitioners the transformation of harmony and the conception of family Taken as a whole the book provides fresh insights into whether and how P4C's Westerninfluenced theories and practices are compromised when they are applied in non Western or rather Confucian contexts A must read for anyone interested in the theory and practice of P4C and Confucianism in general

The Publishers' Trade List Annual, 1982 *A Complex Integral Realist Perspective* Paul Marshall, 2016-07-01 This book sketches the contours of a vision that moves beyond the dominant paradigm or worldview that underlies and governs modernity and postmodernity It does so by drawing on the remarkable leap in human consciousness that occurred during the Axial Age and on a cross pollination of what are arguably the three most comprehensive integrative metatheories available today Complex thought integral theory and critical realism i e a complex integral realism By deploying the three integrative metatheories this book recounts how the seeds of a number of biases within the Western tradition analytical over dialectical epistemology over ontology presence over absence and exterior over interior were first sown in axial Greece later consolidated in European modernity and then challenged throughout the 20th century It then discusses the remedies provided by the three integrative philosophies remedies that have paved the way for a new vision Outlining a new axial vision for the twenty first century which integrates the best of premodernity modernity and postmodernity within a complex integral realist framework this book will be of interest to students and scholars of the Axial Age critical realism integral theory and complex thought It will also appeal to those interested in a possible integration of the insights and knowledge gleaned by science spirituality and philosophy

Jesus Christ in World History Jan A. B. Jongeneel, 2009 Based on the author's thesis Th D Leiden University 1971 Shengren Thorsten J. Pattberg, 2012-10-01 The shengren is the single most important concept in Chinese history Since the Europeans had not anything like it but refused to hold the candle to China instead they withheld the shengren and talked about some lesser versions of Greek philosophers or Christian holy men The English soon found a slightly better translation they called the shengren sages The Germans however the descendants of the Holy Roman Empire of German Nation never had a concept for sages or sagehood In their effort to christen China the Germans called the shengren saints Few people realize how the fate of the shengren was inextricably linked to the German obsession with Holiness The European imperialists soon engaged in a fierce battle over China's most valuable possessions its names

A History of Women Philosophers M.E. Waithe, 1995 Like their predecessors and like their male counterparts most women philosophers of the 20th century have significant expertise in several specialities

Moreover their work represents the gamut of 20th century philosophy s interests in moral pragmatism logical positivism philosophy of mathematics of psychology and of mind Their writings include feminist philosophy classical moral theory reevaluated in light of Kant Mill and the 19th century feminist and abolitionist movements and issues in logic and perception Included in the fourth volume of the series are discussions of L Susan Stebbing Edith Stein Hedwig Conrad Martius Simone de Beauvoir Simone Weil Mary Whiton Calkins Gerda Walther and others While pre 20th century women philosophers were usually self educated those of the 20th century had greater access to academic preparation in philosophy Yet for all the advances made by women philosophers over two and a half millennia the philosophers discussed in this volume were sometimes excluded from full participation in academic life and sometimes denied full professional academic status **Karl**

Jaspers on Truth and Dialogue Anton Hügli,2024-12-16 The German philosopher Karl Jaspers was moved by the possibilities of global understanding throughout his life and penetrated it more deeply than any other thinker before him Anton H gli argues that Jaspers petition to not proclaim a new doctrine but to continue thinking along the path taken by the great philosophers of the past is itself an expression of his unconditional will to communicate The limits of communication that Jaspers shows us are not accidental psychological and sociological obstacles to understanding but limits that we humans encounter as humans we want to communicate what cannot be communicated Instead of an understanding based on a truth that can be understood by all there is a struggle between the powers of faith How we can communicate with one another and work for peace and unity in the world This ultimate question requires a twofold clarification on the one hand of the nature of the objects that have always been considered inexpressible the human s individual existence and God as the ultimate One and on the other hand of the faculty in us that allows us to think things that cannot be thought **Christianity and**

Confucianism Christopher Hancock,2020-12-10 Christianity and Confucianism Culture Faith and Politics sets comparative textual analysis against the backcloth of 2000 years of cultural political and religious interaction between China and the West As the world responds to China s rise and China positions herself for global engagement this major new study reawakens and revises an ancient conversation As a generous introduction to biblical Christianity and the Confucian Classics Christianity and Confucianism tells a remarkable story of mutual formation and cultural indebtedness East and West are shown to have shaped the mind heart culture philosophy and politics of the other and far more perhaps than either knows or would want to admit Christopher Hancock has provided a rich and stimulating resource for scholars and students diplomats and social scientists devotees of culture and those who pursue wisdom and peace today With Knowledge and Virtue Themis H.

Demas PhD,2017-11-20 Technology continues to advance and so do our problems Two of our biggest threats are global warming and nuclear war and we must eliminate these threats Fortunately cost effective technology exists to reduce global warming but we must be smart enough to use it The author offers a detailed proposal for combating climate change building a more robust economy by creating jobs eliminating oil imports stabilizing energy prices and cutting back on pollution and its

detrimental effects on society all by using clean renewable energy He also tackles reducing the threat of nuclear war which will require us to tame the savageness of man This must be done via international institutions cooperation and a commitment to shared values Tackle two of the worlds greatest problems global warming and the threat of nuclear war and consider how to address overpopulation world hunger and other problems along the way With Knowledge and Virtue
