Competing Norms in the Law of Marine Environmental Protection Henrik Ringbom, 1997-10-01 The number of global instruments affecting the law of marine environmental protection both soft and hard law grows constantly Regional organizations have become increasingly concerned with matters affecting traditional freedoms of the seas As a result the law in this area has rapidly expanded often creating competing or conflicting rules *Competing Norms in the Law of Marine Environmental Protection* contains edited versions of the papers presented at a conference in the Åland Islands Finland in August 1996 convened by the Department of Law of Åbo Akademi University Finland It provides a detailed examination of current legal issues relating to the variety of rules and rule makers in the field of marine environmental protection It then goes further relating the recent developments to international law in a wider context The legal regime regulating ship safety and pollution prevention provides an excellent illustration of contemporary trends of international law in general and of the law of the sea and international environmental law in particular

Autonomous Ships and the Law Henrik Ringbom, Erik Røsæg, Trond Solvang, 2020-12-02 Interest in autonomous ships has grown exponentially over the past few years Whereas a few years ago the prospect of unmanned and autonomous vessels sailing on the seas was considered unrealistic the debate now centers on when and in what format and pace the development will take place Law has a key role to play in this development and legal obstacles are often singled out as principal barriers to

the rapid introduction of new technologies in shipping Within a few years autonomous ships have turned from a non issue to one of the main regulatory topics being addressed by the International Maritime Organization However the regulatory discussion is still in its infancy and while many new questions have been raised few answers have been provided to them to date Increased automation of tasks that have traditionally been undertaken by ships crews raises interesting legal questions across the whole spectrum of maritime law The first of its kind this book explores the issue of autonomous ships from a wide range of legal perspectives including both private law and public law at international and national level making available cutting edge research which will be of significant interest to researchers in maritime law Chapter 3 of this book is freely available as a downloadable Open Access PDF at <http://www.taylorfrancis.com> under a Creative Commons Attribution Non Commercial CC BY NC 4.0 license
