only involve products or services that are changed for a local market by simple substitution or the omitting of functions

manufacturing and use of such products are limited and not evenly distributed in the world Locally available resources local  
capabilities as well as local constraints have to be drivers for product and process innovations with respect to the entire life  
cycle The 18th CIRP International Conference on Life Cycle Engineering LCE 2011 serves as a platform for the discussion of
