national laws transposing them while the procedural rules of the Directive apply to proceedings commenced on or after 26 December 2014. Thus it is prior domestic law that continues to govern the vast majority of cases before national courts in the Pre Directive era. In addition a number of issues of the utmost importance have not been addressed by the Directive such as questions of international jurisdiction or the quantification of interests. For these reasons it seemed necessary not to limit this book to commenting on the Directive important as it is but to go beyond it. Directed by Rafael Amaro this book contains the contributions from leading academics attorneys jurists and economists in the field of the private enforcement of competition law. It is composed of thematic chapters dealing with matters such as applicable law in international litigation limitation quantification of damages from both a European Union and a national perspective as well as national chapters presenting the state of play in several European States.
