SNOW

Today, we are going to explore the wonderful world of snow. Snow is something that brings joy and excitement to many people, especially during the winter season. Let's dive into the fascinating facts about snow and learn more about this magical phenomenon.

Snowflakes are tiny ice crystals that fall from the sky when it's really cold. Each snowflake is unique and has its own beautiful shape. If you look closely, you'll notice that they have six sides, just like a hexagon. Don't they amazing? They can be as small as a pinhead or as big as a coin. When lots of snowflakes come together, they form what we call snow.

Do you know how snow is made? It all starts when water vapor in the air turns into ice crystals. These crystals clump together and become snowflakes. When the weather is cold enough, the snowflakes fall from the clouds and blanket the ground in white. Have you ever caught a snowflake on your tongue? It's fun and it keeps the magic of winter!
