**Quality and Inequality in Regional and Urban Systems** Karima Kourtit, Peter Nijkamp, Roger Stough, 2019-11-25 In the aftermath of both ongoing globalisation with both widening and deepening effects on countries, regions and cities and structural changes resulting from the 2008 economic recession, regions and cities in our world are confronted with a different arena of players, performances and institutions. The challenges are formidable and numerous. Many regions and cities seem to resort to their indigenous strength without much regard to other players in the field. This has enormous consequences for the competitive behaviour and profile of regional and urban actors but has at the same time deep impacts on the distribution of wealth, income and employment over and within countries, regions and cities. There is indeed much evidence that disparities among regions and in cities are increasing in this new force field. This special issue of *REGION* makes a solid scientific attempt i) to map out the spatial consequences of recent transitions in growth trajectories of countries or regions and ii) to trace policy strategies and design effective policy information to cope adequately with these new challenges. The present special issue does so by highlighting the new force field of regional and urban dynamics from three angles in the context of spatial quality and inequality. These will be briefly sketched below.

**The Audacity of Hops** Tom Acitelli, Tony Magee, 2017-06-01 Discover the underdog story of how America came to dominate beer stylistically in *The Audacity of Hops*, the first book on American craft beer's history. First published in May 2013, this updated, fully revised edition offers the most thorough picture yet of one of the most interesting and lucrative culinary trends in the US since World War II. This portrait includes the titanic mergers and acquisitions as well as major milestones and technological advances that have swept craft beer in just the past few years. Acitelli weaves the story of American craft beer into the tales of trends such as slow food, the rise of the Internet and the rebirth of America's urban areas. The backgrounds of America's favorite craft brewers, big and small, are here including often forgotten heroes from the movement's earliest days as well as the history of homebrewing since Prohibition. Through it all, he paints an unforgettable portrait of plucky entrepreneurial triumph. This is the book for the craft beer nerd who thinks he or she already knows the story. *Los Angeles Times* an excellent history. *Slate* lovingly told. *Wall Street Journal* for fans of good food and drink in general.

**Brewing Revolution** Frank Appleton, 2016-09-17 The inspiring story behind today's craft beer revolution is the subject of this lively memoir by Frank Appleton, the English trained brewmaster who is considered by many to be the father of Canada's craft brewing movement. Appleton chronicles fifty years in the brewing business from his early years working for one of the major breweries to his

part in establishing the first cottage brewery in Canada to a forward look at the craft beer industry in an ever more competitive market Disillusioned with the Canadian brewing scene in the early 1970s when three huge companies controlled 90 percent of the market and marketers and accountants made the decisions on what products to make not the brewmasters Appleton decided to drop out and brew his own beer while homesteading in the interior of British Columbia He made a meagre living as a freelance writer and his article entitled The Underground Brewmaster sparked the interest of John Mitchell co founder of the Troller Pub in Horseshoe Bay BC Their partnership launched the Horseshoe Bay Brewery in June 1982 the first of its kind in the country serving the iconic Bay Ale brewed from Appleton s recipe Covering a range of topics such as the difficulty of steering beer drinkers away from the Big Boys breweries and struggles with the BC Liquor Control Board as well as brewing plant design and the complexities of the malting process Brewing Revolution touches upon the foundation of what shaped the craft beer industry in Canada Appleton s passion and innovation opened the gates for the scores of brewpubs and microbreweries that were to follow in both Canada and the US and his story is of interest to anyone excited by today s craft beer revival
