Activism through Poetry Marina Llorente, Marcella Salvi, 2017-05-22 Activism through Poetry Critical Spanish Poems in Translation is a compiled anthology of translated poems which explore cultural political social and ecological issues in the context of contemporary Spain The work highlights the active role that poetry plays in the debate of these issues The anthology begins with an introduction which provides a theoretical framework and a critical analysis of each poem It is an important contribution in the academic context and also in the more general context of international social and political action It constitutes the first bilingual translation of selected poems written by well known and emergent contemporary critical poets from Spain The five sections Historical Memory Ecology Political and Social Issues Patriarchy and Capitalism feature four poems with a total of twenty poems ten written by women and ten written by men These poets are activists whose poetry comments on society and more importantly wants to have an impact on it The poetic art that is born from ethical commitment has the potential to call attention not only to the realities of the world we live in but also to the possibilities for transformation Poetry therefore is ultimately a political act

They Also Write for Kids Suzanne Manizza Roszak, 2022-12-28 Outside the world of children s literature studies children s books by authors of well known texts for adults are often forgotten or marginalized Although many adults today read contemporary children s and young adult fiction for pleasure others continue to see such texts as unsuitable for older audiences and they are unlikely to cross read children s books that were themselves cross written by authors like Chinua Achebe Anita Desai Joy Harjo or Amy Tan Meanwhile these

literary voices have produced politically vital works of children's literature whose complex themes persist across boundaries of expected audience. These works form part of a larger body of activist writing for children that has long challenged preconceived notions about the seriousness of such books and ideas about who in fact should read them. *They Also Write for Kids: Cross Writing Activism and Children's Literature* seeks to draw these cross writing projects together and bring them to the attention of readers. In doing so, this book invites readers to place children's literature in conversation with works more typically understood as being for adult audiences, read multiethnic US literature alongside texts by global writers, consider children's poetry and nonfiction as well as fiction, and read diachronically as well as cross culturally. These ways of reading offer points of entry into a world of books that refuse to exclude young audiences in scrutinizing topics that range from US settler colonialism and linguistic prejudice to intersectional forms of gender inequality. The authors included here also employ an intricate array of writing strategies that challenge lingering stereotypes of children's literature as artistically as well as intellectually simplistic. They subversively repurpose tropes and conventions from canonical children's books, embrace an epistemology of children's literature that emphasizes ambiguity and complexity, invite readers to participate in redefining concepts such as civilization and cultural belonging, engage in intricate acts of cross cultural representation, and re envision their own earlier works in new forms tailored explicitly to younger audiences. Too often disregarded by skeptical adults, these texts offer rich rewards to readers of all ages, and here they are brought to the fore.

The Concise Oxford Companion to African American Literature William L. Andrews, Frances Smith Foster, Trudier Harris, 2001-02-15. A breathtaking achievement, this Concise Companion is a suitable crown to the astonishing production in African American literature and criticism that has swept over American literary studies in the last two decades. It offers an enormous range of writers from Sojourner Truth to Frederick Douglass, from Zora Neale Hurston to Ralph Ellison, and from Toni Morrison to August Wilson. It contains entries on major works, including synopses of novels such as Harriet Jacobs's *Incidents in the Life of a Slave Girl*, Richard Wright's *Native Son*, and Lorraine Hansberry's *A Raisin in the Sun*. It also incorporates information on literary characters such as Bigger Thomas, Coffin Ed Johnson, Kunta Kinte, Sula, and Peace, as well as on character types such as Aunt Jemima, Brer Rabbit, John Henry, and Stackolee, and the trickster. Icons of black culture are addressed, including vivid details about the lives of Muhammad Ali, John Coltrane, Marcus Garvey, Jackie Robinson, John Brown, and Harriet Tubman. Here too are general articles on poetry, fiction, and drama, on autobiography, slave narratives, Sunday

others and why do some highly innovative societies such as ancient China or Britain in the industrial revolution pass into stagnation Beginning with a fascinating concise history of technological progress Mokyr sets the background for his analysis by tracing the major inventions and innovations that have transformed society since ancient Greece and Rome What emerges from this survey is often surprising the classical world for instance was largely barren of new technology the relatively backward society of medieval Europe bristled with inventions and the period between the Reformation and the Industrial Revolution was one of slow and unspectacular progress in technology despite the tumultuous developments associated with the Voyages of Discovery and the Scientific Revolution What were the causes of technological creativity Mokyr distinguishes between the relationship of inventors and their physical environment which determined their willingness to challenge nature and the social environment which determined the openness to new ideas He discusses a long list of such factors showing how they interact to help or hinder a nation's creativity and then illustrates them by a number of detailed comparative studies examining the differences between Europe and China between classical antiquity and medieval Europe and between Britain and the rest of Europe during the industrial revolution He examines such aspects as the role of the state the Chinese gave up a millennium wide lead in shipping to the Europeans for example when an Emperor banned large ocean going vessels the impact of science as well as religion politics and even nutrition He questions the importance of such commonly cited factors as the spill over benefits of war the abundance of natural resources life expectancy and labor costs Today an ever greater number of industrial economies are competing in the global market locked in a struggle that revolves around technological ingenuity The Lever of Riches with its keen analysis derived from a sweeping survey of creativity throughout history offers telling insights into the question of how Western economies can maintain and developing nations can unlock their creative potential
