

## Social Psychology Exam 1 Practice Questions and Answers

Construal - Answer✓✓-...how people perceive their environment and experiences

Why do social psychologists study construal rather than simple objective environments of people? - Answer✓✓-People's behavior depends on their interpretation or construal of their social environment and it is important to understand why people behave the way they do

Compare and contrast social psychology with sociology and personality psychology. - Answer✓✓-Personality psychology focuses on individual differences. Social psychologists believe that explaining behavior through personality ignores the critical role of social influence. Sociology focuses on analysis at the level of the group or institution. The goal of social psychology is to identify universal properties of human nature that make everyone susceptible to social influence regardless of class or culture.

Define the fundamental attribution error. - Answer✓✓-...the tendency to explain our own and other people's behavior entirely in terms of personality traits; to underestimate the power of social influence and to overestimate the impact of personal disposition

Identify the consequences of making the fundamental attribution error and underestimating the power of the situation. - Answer✓✓-By failing to fully
