Globalisation and the Challenges of Development in Contemporary India Sita Venkateswar, Sekhar Bandyopadhyay, 2016-03-14 This volume brings together multidisciplinary situated and nuanced analyses of contingent issues framing a rapidly changing India in the 21st century It moves beyond the ready dichotomies that are often extended to understand India as a series of contrasts and offers new insights into the complex realities of India today thereby enabling us to anticipate the decades to come The editors focus on three major themes each discussed in a section The first section Framing the Macro Economic Environment defines the framework for interrogating globalisation and socio economic changes in India over the last few decades of the 20th century spiraling into India in the 21st century The next section Food Security and Natural Resources highlights critical considerations involved in feeding a burgeoning population The discussions pose important questions in relation to the resilience of both people and planet confronting increasingly unpredictable climate induced scenarios The final section Development Activism and Changing Technologies discusses some of the social challenges of contemporary India through the lens of inequalities and emergent activisms The section concludes with an elaboration of the potential and promise of changing technologies and new social media to build an informed and active citizenry across existing social divides

Crooked Cats Nayanika Mathur, 2021-07-12 The last decade has seen the increasing entry of big cats lions tigers and leopards into human settlements in India Most big cats co reside with humans But some have become crooked killing people often serially and frightening residents in villages and cities This new book by big cat connoisseur and anthropologist Nayanika Mathur lays

bare the peculiar atmosphere of terror these encounters create reinforced by stories conspiracy theories rumors anger and news reports about charismatic celebrity cats There are various theories of why and how a big cat turns to eating people and Mathur lays out the dominant ideas offered by the residents with whom she works These vary from the effects of climate change and habitat loss to history and politics The latter for example include the idea of big cats turning on humans for retribution for past injustices poaching or hunting Still no one including the scientists who study animal behavior has been able to explain the highly individualized reasons why some cats turn against humans and others do not Beautifully detailed in its portrayal of India's places people and animals Crooked Cats sheds light on how we understand nonhuman animals and the growing intensity of human nonhuman conflict in the Anthropocene **Holy Science** Banu Subramaniam,2019-05-15

Behind the euphoric narrative of India as an emerging world power lies a complex and evolving relationship between science and religion Evoking the rich mythology of comingled worlds where humans animals and gods transform each other and ancient history Banu Subramaniam demonstrates how Hindu nationalism sutures an ideal past to technologies of the present to make bold claims about the Vedic Sciences and the scientific Vedas Moving beyond a critique of India's emerging bionationalism this book explores the generative possibility of myth and story interweaving compelling new stories into a rich analysis that animates alternative imaginaries and other worlds of possibilities **Handbook of Applied Hydrology,**
