#### **Differential Undercounts in the U.S. Census**

William P. O'Hare, 2019-02-13 This open access book describes the differences in US census coverage also referred to as differential undercount by showing which groups have the highest net undercounts and which groups have the greatest undercount differentials and discusses why such undercounts occur In addition to focusing on measuring census coverage for several demographic characteristics including age gender race Hispanic origin status and tenure it also considers several of the main hard to count populations such as immigrants the homeless the LGBT community children in foster care and the disabled However given the dearth of accurate undercount data for these groups they are covered less comprehensively than those demographic groups for which there is reliable undercount data from the Census Bureau This book is of interest to demographers statisticians survey methodologists and all those interested in census coverage

Transfer State Peter Sloman, 2019-10-30 The idea of a guaranteed minimum income has been central to British social policy debates for more than a century Since the First World War a variety of market economists radical activists and social reformers have emphasized the possibility of tackling poverty through direct cash transfers between the state and its citizens As manufacturing employment has declined and wage inequality has grown since the 1970s cash benefits and tax credits have become an important source of income for millions of working age households including many low paid workers with children The nature

and purpose of these transfer payments however remain highly contested Conservative and New Labour governments have used in work benefits and conditionality requirements to activate the unemployed and reinforce the incentives to take low paid work an approach which has reached its apogee in Universal Credit By contrast a growing number of campaigners have argued that the challenge of providing economic security in an age of automation would be better met by paying a Universal Basic Income to all citizens Transfer State provides the first detailed history of guaranteed income proposals in modern Britain which brings together intellectual history and archival research to show how the pursuit of an integrated tax and benefit system has shaped UK public policy since 1918 The result is a major new analysis of the role of cash transfers in the British welfare state which sets Universal Credit in a historical perspective and examines the cultural and political barriers to a Universal Basic Income

**Passing on the Right** Jon A. Shields, Joshua M. Dunn, 2016 Liberals represent a large majority of American faculty especially in the social sciences and humanities Does minority status affect the work of conservative scholars or the academy as a whole In Passing on the Right Dunn and Shields explore the actual experiences of conservative academics examining how they navigate their sometimes hostile professional worlds Offering a nuanced picture of this political minority this book will engage academics and general readers on both sides of the political spectrum

**Retirement in Japan and South Korea** Masa Higo, Thomas R. Klassen, 2015-04-10 This book analyses reforms to retirement policies in Japan and South Korea especially in the context of rapid population ageing A defining feature of the labour markets and workplaces in these two nations and the lives of workers and families is involuntary retirement at relatively young ages The book explains past developments and recent reforms of retirement policies both in the two countries as well as in a cross national comparative manner At the core of the book is an examination of the social economic and political conflicts around retirement such as between younger and older workers between employers and governments and between employers and workers The policy recommendations offered apply not only to Japan and South Korea but also to other nations such as China The volume is of value particularly for those interested in labour markets and workplaces population ageing and contemporary East Asia in addition to those studying retirement and pensions Policymakers business leaders worker organizations researchers and students will benefit from the insights about the past present and future of retirement

Sharing Nuclear Secrets John Baylis, Anthony Eames, 2023-06-01 Nuclear alliances are high stakes partnerships with the potential to enhance security goodwill scientific and technical innovation and economic well being or they risk a state's very existence generate social and political unrest and fracture frameworks for international cooperation and jeopardize global reputations Now entering its eighth decade the Anglo American nuclear alliance is the oldest and most complex in the world Sharing Nuclear Secrets is the first comprehensive single volume study of the Anglo American nuclear relationship illuminating both its fragility and durability It has waxed and waned based on the preferences of presidents and prime ministers weathered war scares overcome isolationist impulses and imperial decline persisted despite public antipathy

and has survived and been strengthened by scientific rivalries Trust and ambiguity are entangled at the core of the Anglo American nuclear relationship The interplay between trust and ambiguity has influenced the way the nuclear partnership has been institutionalized at bureaucratic and technical levels but also the ways in which political actors and private citizens have maintained the relationship through periods of crisis moments of triumph and through decades of cultural reckoning with nuclear weapons From the days of the Manhattan Project through the crisis of Suez and criticism of Dr Strangelove to the end of the Cold War and into present day circumstances brought about by the JCPOA AUKUS and Russian nuclear threats over Ukraine Sharing Nuclear Secrets reveals that ambiguity is key to keeping the balance between sentiment and interests and the corresponding equilibrium between trust and mistrust in the special relationship The Poisoning of the American Mind Lawrence M. Eppard, Jacob L. Mackey, Lee Jussim, 2024-09-25 What would you have to believe in order to dress up as a shaman paint your face and storm the U S Capitol What could possibly lead somebody to claim that it upholds white supremacy to encourage hard work self reliance rational thinking punctuality and politeness Such behaviors would have been unimaginable only a few years ago And yet here we are witnessing millions of people across the political spectrum displaying these clear indications of an epistemically poisoned mind Both red America and blue America are retreating into their own information bubbles seceding from a common reality Both consume far too much misinformation and disinformation developing worldviews that can sometimes be unintelligible to others This book explores these disturbing developments and what they mean for our society and implores us all to recover a shared sense of what is true **The Dynamics of Risk** Louise K. Comfort, 2019-06-25 Earthquakes are a huge global threat In thirty six countries severe seismic risks threaten populations and their increasingly interdependent systems of transportation communication energy and finance In this important book Louise Comfort provides an unprecedented examination of how twelve communities in nine countries responded to destructive earthquakes between 1999 and 2015 And many of the book s lessons can also be applied to other large scale risks The Dynamics of Risk sets the global problem of seismic risk in the framework of complex adaptive systems to explore how the consequences of such events ripple across jurisdictions communities and organizations in complex societies triggering unexpected alliances but also exposing social economic and legal gaps The book assesses how the networks of organizations involved in response and recovery adapted and acted collectively after the twelve earthquakes it examines It describes how advances in information technology enabled some communities to anticipate seismic risk better and to manage response and recovery operations more effectively decreasing losses Finally the book shows why investing substantively in global information infrastructure would create shared awareness of seismic risk and make postdisaster relief more effective and less expensive The result is a landmark study of how to improve the way we prepare for and respond to earthquakes and other disasters in our ever more complex world *Research Handbook on Intellectual Property and Climate Change* Joshua D. Sarnoff, 2016-04-29 Written by a global group of leading scholars this wide ranging Research

Handbook provides insightful analysis useful historical perspective and a point of reference on the controversial nexus of climate change law and policy intellectual property law and policy innovation policy technology transfer and trade The contributors provide a unique review of the scientific background international treaties and political and institutional contexts of climate change and intellectual property law They further identify critical conflicts and differences of approach between developed and developing countries Finally they put forward and analyse the relevant intellectual property law doctrines and policy options for funding developing disseminating and regulating the required technologies and their associated activities and business practices The book will serve as a resource and reference tool for scholars policymakers and practitioners looking to understand the issues at the interface of intellectual property and climate change

**China's Domestic and International Migration Development** Huiyao Wang, Lu Miao, 2019-03-09 This book offers the most comprehensive up to date assessment of China's domestic and international migration Restructuring economic development requires large numbers of educated and skilled talents but this effort comes at a time when the size of China's domestic workforce is shrinking In response both national and regional governments in China have been keen to encourage overseas Chinese talents and professionals to return to the country Meanwhile the Chinese government has initiated a number of policies to attract international highly skilled talents and enhance the country's competitiveness and some Chinese policies have started attracting foreign talents who are coming to the country to work and even to stay Since Chinese policies mechanisms and administration efforts to attract and retain skilled domestic or overseas talents are helping to reshape China's economy and are significantly affecting the cooperation on migration and talent mobility these aspects in addition to being of scholarly and research interest hold considerable commercial potential

*Continuous Disclosure of Chinese Cross-Border Listed Companies in Australia* Belle Qi Guo, 2023-10-04 This book studies an overarching question of the challenges faced by Chinese lawmakers Chinese listed companies Chinese companies external advisers and securities regulators in dealing with Chinese cross border listed companies continuous disclosure in Australia and how can these challenges be addressed Chinese listed companies are struggling to meet the continuous disclosure requirements while listing in Australia and have even been depicted as having poor corporate governance and transparency Many get delisted from the securities market in Australia subsequently due to non compliance in continuous disclosure or are straight rejected from listing because of continuous disclosure compliance concerns This book cuts in from this angle and delves deep into the overarching question through the following four sub questions What are the theories and policies behind the continuous disclosure regimes in Australia and China and how have they been differently implemented in the securities markets in these two countries What are the deficiencies at the intracompany level contributing to Chinese cross border listed companies non compliant continuous disclosure in Australia What are the limitations from the perspective of external advisers efforts contributing to Chinese cross border listed companies non compliant continuous disclosure in Australia What are the difficulties at the

regulatory level contributing to Chinese cross border listed companies non compliant continuous disclosure in Australia In addressing these questions and putting forward corresponding reform proposals this book takes not only legal but also historical cultural and political economic factors into consideration Impasse Roy Scranton,2025-08-05 A Next Big Idea Club Must Read for August 2025 We need a new realism in the face of global climate catastrophe Extreme heat fires floods and storms are transforming our planet Yet instead of serious responses from world leaders we get increasing emissions divisive politics and ersatz solutions that offer more of the same more capitalism more complexity more progress The impasse we face is not only political and institutional but cognitive existential and narrative We re incapable of grasping the scale speed and impact of global warming Our brains can t make sense of how radically our world is changing And we optimistically cling to a civilizational narrative that promises a better tomorrow if we just keep doing what we re doing It s well past time Roy Scranton argues to free ourselves from our dangerous and dogmatic faith in progress Such unwarranted optimism will only accelerate our collective disintegration If we want to have any hope at all for the future it must be grounded in a recognition of human limits a view Scranton calls ethical pessimism Drawing from psychology philosophy history and politics as well as film literature and personal experience Scranton describes the challenges we face in making sense of our predicament from problems in communication to questions of justice from the inherent biases in human perception to the difficulties of empirical knowledge What emerges is a challenging but ultimately hopeful proposition if we have the courage to accept our limits we may find a way to embrace our unknowable future **Transforming Payment**

**Systems in Europe** Jakub Górka,2016-04-08 The European payment market has undergone rapid transformation in recent years due to changes in payment habits new business rules and new legal frameworks and regulation There has also been an advent of new technologies and payment solutions which has altered the European payments landscape drastically This book provides an overview of the fundamental issues involved in this new payments landscape The authors discuss fundamental problems such as substitution between cash and non cash payment instruments payment costs the economics of fees and the demand for cash and deposit money They also analyse issues such as two sided markets business platforms and the problem of critical mass Other chapters focus on new phenomena in payments such as mobile payments multi sided platforms electronic wallets virtual currencies decentralised ledgers private digital currencies blockchain and instant payments The authors also review existing regulation for the topic including the revised Payment Services Directive PSD2 Interchange Fee Regulation IF MIF Reg and the Single Euro Payments Area SEPA project Transforming Payment Systems in Europe offers insight into changing payment culture and the ways in which new payment systems can create a single digital market to foster further integration in Europe *Law, Death, and Robots* Keri Grieman,2024-10-17 Can the law keep up with AI This book examines liability and regulation for artificial intelligence causing serious physical harm both now and in the future While AI moves quickly regulation follows more slowly an increasing problem for an evolutionary fast paced emerging

technology AI has the potential to save lives but in doing so will have the potential to take them as well How do we future proof law and regulation to incentivise life saving innovation as safely as possible This book details how to regulate AI in high risk civil applications for example automated vehicles and medicine addressing both liability and regulatory structure It highlights crucial liability themes for technology governance provides tools to bridge the gap between regulators and technologists examines jurisdictional approaches to AI regulation in the EU UK USA and Singapore and ultimately suggests a jurisdiction agnostic blueprint for regulation

*A Practice of Ethics for Global Politics* Jack L. Amoureux, 2015-10-05 What kind of ethics in world politics is possible if there is no foundation for moral knowledge or global reality is at least complex and contingent Furthermore how can an ethics grapple with difference a persistent and confounding feature for global politics This book responds to the call for a bold and creative approach to ethics that avoids assuming or aspiring to universality and instead prioritizes difference complexity and uncertainty by turning to reflexivity not as method or methodology but as a practice of ethics for politics This practice ethical reflexivity offers individuals organizations and communities tools to recognize interrogate and potentially change the stories they tell about politics about constraints notions of responsibility and visions of desirability The benefits and limits of ethical reflexivity are investigated by the author who engages writing on critique rhetoric affect and relationality and carefully considers dominant and alternative framings of difficult issues in International Relations IR the 1994 genocide in Rwanda and the US policies of enhanced interrogation and drone strikes This path breaking study provokes new possibilities for agency and action and contributes to a growing literature in IR on reflexivity by uniquely elaborating its promise as an ethics for politics and by drawing on thinkers less utilized in discussions of reflexivity such as Hannah Arendt Michel Foucault and Aristotle This book will appeal to scholars and upper level graduates in several sub fields of IR including international global ethics IR theory global governance international organizations non governmental organizations foreign policy analysis and US foreign policy
