LA COLLECTION QUI VOUS RÉUSSIT

Grandir, travailler, vieillir, choisir sa sexualité, vivre des relations amoureuses, construire sa famille, pratiquer des loisirs, éduquer des enfants : le genre affecte les principaux moments traversés par un-e individu-e au cours de sa vie.

L'ouvrage révèle comment ces différences sexuées sont construites, légitimées et transformées dans les sociétés contemporaines. Il décrit également les principales instances de socialisation qui participent à les produire : école, pairs, familles, médias... Il donne enfin à voir les transgressions à l'œuvre dans nos sociétés ainsi que les éventuelles transformations sociales qu'elles annoncent.

Enquête après enquête, apparaissent ainsi les modalités précises de production et de transformation des différences sexuées. Tout en restituant les grands débats et discussions autour du concept de genre, l'ouvrage permet à chacun et à chacune de mieux « voir » le genre en train de se faire dans son expérience quotidienne.

## Sociologies Du Genre:

Sociologie des rapports de sexe Marie-Blanche Tahon, 2004 Trop souvent encore les rapports de sexe sont considérés comme un sous champ particulier de la sociologie alors qu'ils traversent l'ensemble de la discipline puisqu'ils interviennent dans tous les domaines de la société. Afin de l'établir, il ne suffit plus de se tenir à la notion de rapports sociaux de sexe qui le plus généralement est utilisée pour faire apparaître l'asymétrie entre les sexes. L'gard du travail incluant le travail domestique. Le débat autour de la parité politique dont la France n'a pas le monopole a imposé la réflexion sur les rapports politiques de sexe. Cette réflexion ne peut être déliée de la prise en considération de la révolution qui s'est produite dans les rapports entre les sexes depuis un trentaine d'années dorénavant avec la reconnaissance par la loi et par la société du droit des femmes contre elles-mêmes. Leur condition ne sont plus marquées par les déterminations de leur sexe, elles intègrent la catégorie de l'individu abstrait. Il devient alors visible que le peuple est composé de deux catégories sexuelles instituées par le droit civil. Aussi la notion de sexe est-elle plus utile à l'analyse que celle de genre. À partir du moment où il est formellement admis que chaque femme comme chaque homme peut prétendre à son corps, les rapports entre les sexes empruntent le registre du différend plutôt que celui de la différence. Les femmes ne sont plus victimes, elles sont plaignantes, elles instruisent le procès de la démocratie moderne qui les a tenus à distance du principe : tous les hommes naissent libres et égaux en droits. Publi en français.

Cornelia Möser, 2013 *Féminismes en traduction* entreprend une analyse des débats féministes sur le genre en France et en Allemagne Le livre se concentre sur les aspects producteurs des transformations de traduction en suivant les chemins des transferts culturels empruntés par les débats sur le genre En commençant par une analyse et contextualisation des débats l'auteure expose que ce que les participant·es des débats présentent comme théories de genre est intensément influencé par la soi-disant French theory Les parallèles flagrants entre les débats intenses sur le French feminism aux Etats Unis dans les années 1980 et les débats sur le genre mettent en relief la possibilité d'une construction stratégique d'un corps théorique qui interroge ou attaque des ensembles théoriques hégémoniques Or le French feminism qui aux Etats Unis mène la configuration compétitive entre Théorie critique et Théorie postmoderne est déjà le résultat de transferts théoriques qui conduisent par la suite

l'obsession théorique allemande d'un groupe de théoricien français entre 1960 et 1980. Ce qui paraît être antagonique ici a donc connu une période d'interrelation intense auparavant. La traduction dans ce sens doit être comprise comme facteur central d'un mode de production de savoir mondialisé. Les débats sur le genre sont étroitement liés aux espoirs d'améliorer l'institutionnalisation timide de la recherche féministe en France et en Allemagne. Cela dit, la science féministe a entrepris d'écrire l'histoire de sa pensée. L'auteure met en relief les dangers, notamment théoriques, de ce projet en discutant les récits les plus fréquents.

**Masculinities in Contemporary Africa** Egodi Uchendu, 2008. Although gender and non gender scholars have studied men such an academic exercise requires a critical and focused study of masculine subjects in particular social contexts which is what this book attempts to do. This empirically rich collection of essays the seventh of the CODESRIA Gender Series deals with critical examinations of various shades and ramifications of Africa's masculinities and what these portend for the peoples of Africa and for gender relations in the continent. So much has changed in terms of notions and expressions of masculinities in Africa since ancient times but many aspects of contemporary masculinities were fashioned during and since the colonial period. The papers in this volume were initially discussed at the 2005 month long CODESRIA Gender Institute in Dakar. The contributors are gender scholars drawn from various disciplines in the wide fields of the humanities and the social sciences with research interests in the critical study of men and masculinities in Africa. The CODESRIA Gender Series aims at keeping alive and nourishing the African social science knowledge base with insightful research and debates that challenge conventional wisdom structures and ideologies that are narrowly informed by caricatures of gender realities. The series strives to showcase the best in African gender research and provide a platform for emerging new talents to flower.

What are the relations between sociology and the different religions Christianity with its various branches Judaism Islam Oriental religions sects and New Religious Movements That is the question which this work conceived on the occasion of the XXVth Conference of the International Society for the Sociology of Religion Soci t Internationale de Sociologie des Religions SISR wishes to clarify The book retraces the varied and troubled history of these relations and also reveals how in opening up its research to other religions besides the Christian sociology is forced to redefine the very object of its field of study What is the religious This question which until recently was considered impertinent informs this book throughout If confronts the necessity of rethinking theories and methodological approaches which constructed in the context of 19th and early 20th century Western Europe prove to be rather inadequate for encompassing contemporary religious phenomena and religious manifestations in other contexts To these new theoretical and methodological demands is added for the sociologist a deontological imperative which takes on all the more importance today as the religious provokes passionate social debate

and from within the self In so doing they provide inspiring examples of sisterly support and lifelong friendship      *Women in Jazz* Marie Buscatto, 2021-12-30 *Women in Jazz Musicality Femininity Marginalization* examines the invisible discrimination against female musicians in the French jazz world and the ways in which women thrive as professionals despite such conditions The author shines a light on the paradox for women in jazz to express oneself in a feminine way is to be denigrated for it yet to behave in a masculine manner is to be devalued for a lack of femininity This masculine world ensures it is more difficult for women to be recognized as jazz musicians than it is for men even when musicians critics and audiences are ideologically opposed to discrimination Female singers are confined by the feminine stereotypes of their profession while female instrumentalists must comport themselves into traditionally masculine roles The author explores the academic and professional socializations of these musicians the musical choice they make and how they are perceived by jazz professionals as a result First published in French by CNRS Editions in 2007 and later reissued in paperback in 2018 with the author's postscript that nothing much has changed *Women in Jazz Musicality Femininity Marginalization* expands the conversation beyond the French border identifying female jazz musicians as a discriminated minority all around the world
