On Social Organization and Social Control Morris Janowitz, 1991-05-28 In the four decades following the end of World War II Morris Janowitz 1919-88 published major works in macrosociology urban and political sociology race and ethnic relations and the study of armed forces and society His research was deeply rooted in the traditions of philosophical pragmatism and the Chicago school of sociology influences which led him to reject grand theories and mechanistic explanations of social life Yet he remained confident in the capacity of sociological reason to come to grips with central aspects of the human condition On the basis of his studies Janowitz came to believe that the transition from early to advanced industrial society radically altered institutional organization to make democratic social control more difficult though not impossible to achieve The task of his pragmatic sociology was to identify fundamental trends in the social organization of industrial societies to indicate their substantive implications for social control and to clarify realistic alternatives for institution building which would strengthen the prospects for maintaining liberal democratic regimes In this volume James Burk selects from Janowitz's scholarly writings to provide a comprehensive overview of his wide ranging interests Organized to demonstrate the common logic of inquiry and substantive unity of Janowitz's contribution to several subfields of sociology the collection includes analyses of the concept of social control ethnic intolerance and hostility citizenship in Western societies models for urban education and the professionalization of military elites Burk provides a richly detailed critical account of Janowitz's intellectual development placing his writings in historical context and showing their continuing relevance for sociological research Useful to both students and specialists the volume is an important source for the ideas and methods of one of sociology's leading figures

**Samuel Stouffer and the GI Survey** Joseph W. Ryan, 2013-11-01 Samuel Stouffer a little known sociologist from Sac City Iowa is likely not a name World War II historians associate with other stalwart men of the war such as Eisenhower Patton or MacArthur Yet Stouffer in his role as head of the Army Information and Education Division's Research Branch spearheaded an effort to understand the citizen soldier his reasons for fighting and his overall Army experience Using empirical methods of inquiry to transform general assumptions about leadership and soldiering into a sociological understanding of a draftee Army Stouffer perhaps did more for the everyday soldier than any general officer could have hoped to accomplish Stouffer and his colleagues surveyed more than a half million American GIs during World War II asking questions about everything from promotions and rations to combat motivation and beliefs about the enemy Soldiers answers often demonstrated that their opinions differed greatly from what their senior leaders thought soldier opinions were or should be Stouffer and his team of sociologists published monthly reports entitled What the Soldier Thinks and after the war compiled the Research Branch's exhaustive data into an indispensable study popularly referred to as The American Soldier General George C Marshall was one of the first to recognize the value of

Stouffer's work referring to *The American Soldier* as the first quantitative studies of the mental and emotional life of the soldier Marshall also recognized the considerable value of *The American Soldier* beyond the military Stouffer's wartime work influenced multiple facets of policy including demobilization and the GI Bill Post war Stouffer's techniques in survey research set the state of the art in the civilian world as well Both a biography of Samuel Stouffer and a study of the Research Branch Samuel Stouffer and the GI Survey illuminates the role that sociology played in understanding the American draftee Army of the Second World War Joseph W Ryan tracks Stouffer's career as he guided the Army leadership toward a more accurate knowledge of their citizen soldiers while simultaneously establishing the parameters of modern survey research David R Segal's introduction places Stouffer among the elite sociologists of his day and discusses his lasting impact on the field Stouffer and his team changed how Americans think about war and how citizen soldiers were treated during wartime Samuel Stouffer and the GI Survey brings a contemporary perspective to these significant contributions Concepts of Air Force Leadership, 1970 *Military Establishment Appropriation Bill for 1944* United States.
