Fighting Better Louis Kriesberg, 2022-12-08 The people in the United States are experiencing an extreme degree of division political partisanship and civic disorder Destructive fights are waged about matters such as misinformation voting rights school curriculum government spending and personal privacy How can these distressing circumstances be overcome More specifically what makes the difference between conflicts that result in progress versus those that further contribute to a

greatly polarized extremely unequal and distressed society In *Fighting Better* Louis Kriesberg argues that the crises confronting the US presently are the result of changes in dynamics along three societal dimensions class status and power Those changes were brought about to a great degree by people waging conflicts constructively destructively or avoiding overt conflicts altogether Assessing major domestic conflicts in the United States since 1945 Kriesberg evaluates how well conflicts were waged in terms of advancing justice liberty and equal opportunity for all Americans Moreover he offers ideas for how some of those fights might have been waged more effectively and with longer term benefits connecting current US crises to past mistakes In doing so Kriesberg deepens our understanding of how the way conflicts are waged can help to reduce inequities in class power and status particularly with regard to gender and race Current Perspectives on Immigrant Integration in Europe and Beyond Boris Heizmann, Reinhard Schunck, 2022-08-02
