

Identify and explain **one** advantage of using unstructured interviews to investigate relationships between family members **(4)**

Student response 2

One advantage of using unstructured interviews is that you can ask questions to different family members based on the answers given by other family members. By doing this you can achieve a more detailed and wider range of valid information about family life. For example, you can compare the responses of a husband and wife to a question about who does the housework or who looks after the children.

This is a level 4 response.

Another answer that offers a well-developed explanation of the advantages of the relevant method that is clearly related to the context of the question.

 Catholic Church including the new process of spiritual formation called the Rite of Christian Initiation of Adults RCIA that
 was ushered in by Vatican II The RCIA process which has become an integral part of Catholic parish life takes individuals on
 a journey through four distinct formative periods punctuated by elaborate ritual transitions before they are finally baptized at
 Easter Drawing on years of observational fieldwork and candid interviews with more than 200 individuals undergoing the
 initiation process Yamane follows would be Catholics through all four stages of the RCIA and offers an incisive new
