Vibe ,2006-07 **Paul's Visual Piety** J. M. F. Heath,2013-05-02 This book is at the interface between Visual Studies and Biblical Studies For several decades scholars of visuality have been uncovering the significance of everyday visual practices in the sense of learnt habits of viewing and the assumptions that underpin them They have shown that these play a key role in forming and maintaining relationships in religious devotion and in social life The Visual Studies movement brought issues such as these to the attention of most humanities disciplines by the end of the twentieth century but until very recently made little impact on Biblical Studies The explanation for this disciplinary blind spot lies partly in the reception of St Paul who became Augustine s inspiration for platonising denigration of the material world and Luther s for faith through scripture alone In the hands of more radical Reformers the Word was soon vehemently opposed to the Image an emphasis that was further fostered in the philologically inclined university faculties where Biblical Studies developed Yet Paul s piety is visual as well as verbal even aside from his mystical visions He envisages a contemplative focus on certain this worldly sights as an integral part of believers metamorphosis into Christ likeness This theme runs through Romans but finds its most concise expression in his correspondence with the Corinthians We all with unveiled face beholding in a mirror the glory of the Lord are being metamorphosed into the same image from glory to glory as from the Lord the Spirit 2 Cor 3 18 Richly ambiguous and allegorical as this is Paul shortly afterward defines an earthly site where this transformative sacred gaze

occurs He insists that not mere death but the death of Jesus is made manifest in his suffering apostolic flesh Rightly perceived this becomes a holy spectacle for the sacred gaze working life in those who behold in faith but undoing those who see but do not perceive

Martin Luther Mihai Androne, 2020-07-20 This book explores specific aspects of Martin Luther s ideas on education in general and on religious education in particular by comparing them to the views of other great sixteenth century reformers Huldrych Zwingli John Calvin and Philip Melanchthon By doing so the author highlights both the originality of the German reformer s perspective and the major impact of the main religious movement at the dawn of modernity on the development of

public education in Western Europe Although Martin Luther was a religious reformer par excellence and not an educational theorist a number of pedagogically significant ideas and ideals can be identified in his extensive theological work which may also qualify him as an education reformer The Protestant Reformation changed the world bringing to the fore the relation between faith and education and made the latter a public responsibility by proving that the spiritual enlightenment of youth regardless of gender and social origin is indissolubly linked to instruction in general and especially to a more thorough understanding of the classical languages arts history and mathematics
