Congress. House. Committee on Foreign Affairs. Subcommittee on Africa, Global Health, Global Human Rights, and International Organizations, 2015      *Representations of Child Soldiers in Contemporary African Narratives* Ademola Adesola, 2024-09-11 In *Representations of Child Soldiers in Contemporary African Narratives* Ademola Adesola examines the dominant factors that writers privilege in their portrayals of child soldiering in sub Saharan Africa In his textual interpretive analyses of selected novels in the African child soldier genre Adesola contends that critical discussions of African child soldier literature have depended on the interpretive frameworks supplied by Western humanitarian discourses which oversimplify and de historicize experiences of war in Africa The author argues that such reductive decontextualization of war realities serve to champion a narrow vision of war in African contexts centered on a moral and humanitarian urge for Western intervention Regardless of whether the casus belli legitimating those wars are genuine or not those conflicts and children s involvement in them are understood within the same racist colonial and ethnocentric stereotypes about Africa that have been privileged in Western thought and the Western moral political imagination for centuries Thus in studying African child soldier narratives this book provides an alternative reading of novels whose settings feature African ethnopolitical conflicts such as in Sierra Leone Liberia Congo Brazzaville Nigeria notable for their exploitation of children for military ends The author maintains that these works are significant in the varying ways they reify and challenge the Western ideas of child and childhood as well as privilege child soldiers as social actors whose intricate makeups disavow being simply understood as innocent victims or irredeemable perpetrators of atrocities      **Special Warfare**, 2013      *Organisational Learning and the Modern Army* Tom Dyson, 2019-07-08 Drawing upon extensive original research this book explores best practice in army lessons learned processes Without the correct learning mechanisms military adaptation can be blocked or the wider lessons from adaptation can easily be lost leading to the need to relearn lessons in the field often at great human and financial cost This book analyses the organisational processes and activities which can help improve tactical and operational level learning through case studies of lessons learned in two key NATO armies that of Britain and of Germany Providing the first comparative analysis of the variables which facilitate or impede the emergence of best practice in military learning it makes an important contribution to the growing scholarship on knowledge management and learning in public organisations It will be of much interest to lessons learned practitioners and students of military and strategic studies defence studies organisation studies and security studies      *Human Trafficking* Alexis A. Aronowitz, 2017-02-24 Offering an up to date and comprehensive resource for students and general readers investigating human trafficking this book examines the phenomenon in its many forms the factors contributing to its existence the victims it affects and those who perpetrate this horrific crime The horrific reality is that millions of human beings are bought and sold every year worldwide Human trafficking is not an obsolete practice and these crimes are not rare in occurrence Recent examples of human trafficking such as the abduction of hundreds of Nigerian schoolgirls by the terrorist organization Boko Haram and depictions of trafficking in
