*Siege of Fate* Wilson Ohwedor, 2018-08-10 Have you ever seen someone facing a slow death and yet you can do nothing Or the trade off is so high its better to die Enitan and Ikudoro face this plight in Wilson s terrifying novel *Siege of Fate* A Sci Fi Dystopia In a near future Africa superstitions have become medical facts Ikudoro is dying and even the best doctors cannot salvage her Dr Jason Crane comes up with a bizarre solution The doctor claims he can upload a dying person s mind into a durable healthy robotic body thus keeping her alive Catch is the doctor won t explain how the process works Additionally Ikudoro must die a horrible death for the transformation to occur That is she must be mutilated and devoured by a series of automated spinning blades and interlocking teeth before her consciousness can be uploaded into the robot What will Enitan and Ikudoro eventually do *Siege of Fate* is playfully serious dancing naked with thick darkness while relentlessly satirizing pseudoscience and faith based medicine It will make you laugh at its absurdity and leave you wondering about the location of your own consciousness In *Siege of fate* Wilson writes intelligently and beautifully of post apocalypse love hermaphrodites and robots It is thought provoking perfectly paced uniformly delightful compassionate Wilson has remarkable gifts Helon Habila Award winner of Caine prize for African writing This is one of the quirkiest and engaging stories that I have ever read in a long time Lily Lamb Amazon best seller of *Nameless* **Focus On: 100 Most Popular Station Wagons** Wikipedia contributors, *The Oxford Handbook of the South African Economy* Arkebe Oqubay, Fiona Tregenna, Imraan Valodia, 2021 This Handbook provides a detailed and wide ranging coverage of the key economic questions in South Africa concentrating on the more recent economic challenges facing the country *Focus On: 100 Most Popular Compact Cars* Wikipedia contributors, **Extremisms in Africa Volume 2** Alain Tschudin, Craig Moffat, Stephen Buchanan-Clarke, Susan Russell, Lloyd Coutts, 2019-06-18 Over the past two decades the rapid emergence and spread of both local and transnational extremist organisations has become a primary source of insecurity in Africa Extremist organisations represent the fluid and variable nature of conflict systems today and are at the heart of some of Africa s most enduring conflicts Moreover the inability of African states to contain the threat of extremism or of heavy handed security responses has led to the loss of thousands of lives displaced millions and deeply impacted the continent s democratisation and development goals This is the second anthology published by Good Governance Africa GGA on the topic of extremism and political violence in Africa *Extremisms in Africa* one of the first anthologies of its kind on this topic to be authored and published on the African continent provided an account of how extremist groups arose in Africa and the various ways in which they have harnessed their global agendas to local conflict dynamics and structural challenges enabling them to exploit the grievances of individuals and communities for their cause This anthology *Extremisms in Africa Volume 2* looks forward giving special attention to the ways in which emergent trends global geopolitics and conflict dynamics merge to impact upon the African continent To this end we have sought to engage diverse topics ranging from ecological concerns surrounding

climate change and migration the implications of such human movement for modern day trafficking and slavery and the roles of women and youth State responses to extremisms on the African continent are not uniform the capacity of individual states to detect identify police investigate and prosecute is highly variable At the most fundamental level extremisms are ripe to arise in contexts where governments are failing especially when democracy is on the wane This anthology identifies some of the most pressing challenges in addressing extremisms today and provides chapters that could offer actionable policy insights to governments and civil society Given the nature of Africa s geopolitical landscape state and security services alone cannot prevent extremism It will take a whole of society approach where government civil society academia communities families and individuals collaborate to better understand the local dynamics of recruitment and radicalisation and develop context specific strategies in response This anthology will hopefully provide practitioners with improved insight into some of the key challenges and potential solutions in preventing extremism while also being of interest to the general reader *The Sharing Economy and the Tourism Industry* Roya Rahimi,Babak Taheri,Dimitrios Buhalis,2022-04-29 The sharing economy is at the centre of current debates involving new technologies sustainability big data and stakeholder engagement This edited volume encourages new theoretical and empirical development on sharing economy studies in the service industries field
