The Revolutionary City Mark R. Beissinger, 2022-04-12 How and why cities have become the predominant sites for revolutionary upheavals in the contemporary world Examining the changing character of revolution around the world The Revolutionary City focuses on the impact that the concentration of people power and wealth in cities exercises on revolutionary processes and outcomes Once predominantly an urban and armed affair revolutions in the twentieth century migrated to the countryside as revolutionaries searched for safety from government repression and discovered the peasantry as a revolutionary force But at the end of the twentieth century as urban centers grew revolution returned to the city accompanied by a new urban civic repertoire espousing the containment of predatory government and relying on visibility and the power of numbers rather than arms Using original data on revolutionary episodes since 1900 public opinion surveys and engaging examples from around the world Mark Beissinger explores the causes and consequences of the urbanization of revolution in the late twentieth and early twenty first centuries Beissinger examines the compact nature of urban revolutions as well as their rampant information problems and heightened uncertainty He investigates the struggle for control over public space why revolutionary contention has grown more pacified over time and how revolutions involving the rapid assembly of hundreds of thousands in central urban spaces lead to diverse ad hoc coalitions that have difficulty producing substantive change The Revolutionary City provides a new understanding of how revolutions happen and what they might look like in the future
