Competition between firms is usually the most effective way of delivering economic efficiency and what consumers want However there is a balance to be struck Firms must not be over regulated and so hampered in their development of innovative products and new strategies to compete for customers Nor must they be completely free to satisfy a natural preference for monopoly which would give them higher profits and a quieter life The economic role of competition policy control of anticompetitive agreements mergers and abusive practices is to maintain this balance and an effective policy requires a nuanced understanding of the economics of industrial organization *Cases in European Competition Policy* demonstrates how economics is used and sometimes abused in competition cases in practical competition policy across Europe Each chapter summarizes a real case investigated by the European Commission or a national authority and provides a critique of key aspects of the economic analysis *The People's Car* Bernhard Rieger,2013-04-16 Bernhard Rieger reveals how a car commissioned by Hitler and designed by Ferdinand Porsche became a global commodity on a par with Coca Cola The Beetle s success hinged on its uncanny ability to capture the imaginations of executives engineers advertisers car collectors suburbanites hippies and everyday drivers across nations and cultures **Dealing with Dominance** Nauta Dutilh (Firm),2004-01-01 A prohibition of the abuse of dominance is an essential provision in any country s competition law The purpose of such a prohibition is to protect competition where it is potentially weakened by the presence of dominant market players If applied immoderately however this prohibition is liable to seriously harm competition rather than protect it In this useful compilation local practitioners and academics in twelve countries provide a detailed summary and analysis of the application of their countries law in this area drawing on the experience of national competition authorities in dealing with market dominance as well as a wide range of legislation administrative regulations and case law Nine EU member states are covered as are Australia New Zealand and the United States Although contributors were specifically asked not to compare their national provisions with Article 82 EC the book nevertheless provides useful insight on that article as well National borderline cases of the kind described here help to clarify the application of Article 82 EC especially considering that the case law on this provision is often controversial *Dealing with Dominance* is a useful reference tool for the application of the national counterparts to Article 82 EC in Europe and beyond and answers a basic practical need of both national and

international competition law practitioners This book can also be seen as an especially important contribution to the comparative analysis of an increasingly crucial area of economic law **The VW Camper Van** Mike Harding,2013-05-23 It was invented immediately after the war in the factory a far sighted English military man had set up to turn the German economy from making machines of warfare to more pacific products By the seventies that dream had been amply fulfilled as the VW Campervan became the conveyance of choice for West Coast hippies Australian surf bums and Europeans taking the overland route to find enlightenment and good karma in India It had also become indeed still is the first choice for any couple or family seeking a cheap camping holiday with wheels attached So never mind the oddly off centre driving wheel the vagaries of the aircooled rear engine the VW Campervan had become more than a vehicle it had truly become a way of life Mike Harding s first ride in a Volkswagen Camper Van was back in 1961 when it was the carrying around the gear and bandmembers of his rock band the Manchester Rainmakers Finally in 2009 he could wait no longer and bought his own a 2001 Type 2 bay window Brazilian import Danbury conversion in hot orange and off white Add in the endless curiosity of the author of eight monographs on church architecture and the hilarious sense of humour of one of Britain s best stand up comics and you have a wonderful social history of the postwar years through the prism of a single transport icon
