

WESO Ceramic Tile Stove

SPECIFICATIONS

The WESO utilizes the incomparable principles of the great Alpine Kachelofens to heat your home.

Its heart is an airtight, double cast iron firechamber, surrounded by a wall of hand-glazed terra cotta tiles with an air-space between.

Since cast iron radiates warmth faster than the tiles can absorb it, heated air builds up in the airspace, then moves upward to escape through openings at the stove's top. Cool air is drawn in below to replace it—thus a natural convection cycle begins.

This circular heating pattern provides a steady, even heat that is virtually the same temperature floor to ceiling. In addition, the tiles act as a heat sink, absorbing heat and slowly dispersing it in the form of radiant warmth, similar to the soothing rays of the sun. Infra-red heat is also delivered to your room through the tempered glass window in the firedoor.

The WESO provides all these efficiency, safety and convenience features

- Firechamber is heavy cast iron, built up right for slow, controllable burning. The WESO will hold a wood fire up to 10 hours and a coal fire up to 18 hours without reloading.
- Removable tile sections make this a portable stove; two men can lift and move the WESO.
- Inner cast iron burning basket within cast iron shell plus unique shaking grate permits burning wood or coal without firebrick lining.
- Automatic thermostat lets you preset heat level. Will shut down fire automatically if stove overheats. Hand setting permits over-riding thermostat if desired.
- You can see the flickering flames behind the firedoor's tempered glass window.
- Tiles are safe to touch without instant blistering. Easy-to-clean tiles will never lose their lustrous beauty.
- Will take logs to 16". Will also burn brown coal, lignite and the new cellophane-wrapped coal bricks.
- Ash pan slides out easily for cleaning; protective shield catches stray ashes to keep floors spotless.
- Will heat up to 6400 cu. ft. or an 800 sq. ft. living area. Heating capacity: up to 10,000 BTU's.
- Has met stringent German Industrial Norms for safety, efficiency and environmental protection.
- Utilizes pre-heated primary and secondary air for maximum combustion efficiency.
- Standard 6" flue collar mounted in rear. No stovepipe adapter needed.
- Shaking grate separates and drops ashes into ashpan below. Ashpan slides out easily for emptying; metal shield catches stray ashes.
- Will cook your meals and heat your living area during a power outage—you're totally independent of oil, gas or electricity sources.
- Shipped fully assembled with detailed Operation Manual.
- Kettles and pots simmer gently on top grille. Bake grille to cook directly on the WESO's cast-iron surface.
- Both top and front grilles are black-enamelled cast iron, in wrought-iron motif. No exterior metal ever, with your WESO stove.

• Measures 33½" H x 35" W x 19" D; 34½" from floor to flue vent center. Weight: 440 lbs.

The heart of the WESO stove: The front grille, of enamelled cast iron in wrought-iron motif, swings away to reveal the fire-chamber door and the ashpan door which conceals a removable ash pan. As a safety measure the ashpan door cannot be opened without first opening the firedoor. When the ashpan door is opened, a protective tray slides forward automatically to catch any stray ashes that may become dislodged as you empty the pan.

By simply lifting the top grille, you can warm up soup, cook a casserole or prepare a complete meal on the WESO stove.
