The Grand Scam Rob Rose, 2013-11-20 From 2005 to 2009 the heir to one of South Africa's blue blood families Barry Tannenbaum methodically constructed the largest ever con in South African history The Grand Scam exposes details about the brazen greed of the scammers a bank that facilitated the shady dealings rather than alerting the authorities and the naivety of business people who should have known better It goes far beyond the original news stories containing original research and material that for the first time answers the central question of why Barry Tannenbaum the grandson of the founder of one of the country's biggest pharmaceutical firms Adcock Ingram offered investors stratospheric returns of more than 200 per cent a year by investing in the components used to make AIDS drugs It was nothing more than a lie which suckered the country's business elite including the former CEO of Pick n Pay the one time head of the Johannesburg Stock Exchange and the ex boss of OK Bazaars After the bubble popped in June 2009 finance minister Pravin Gordhan announced that hundreds of investors in South Africa Australia and Europe had ploughed more than R12.5 billion into Tannenbaum's scheme based on the empty promise of immense riches Dwarfing the Brett Kebble rip off Fidentia and the Krion pyramid scheme it proved to be the most embarrassing financial disaster in the country's history and it exposed holes in a banking and financial system billed as one of the safest in the world For Tannenbaum's victims the nightmare continued after the scheme collapsed as liquidators tax officials and criminal investigators demanded their pound of flesh But Tannenbaum now at large on Australia's Gold Coast continues to live as if nothing happened working for an Australian insurance company The question that hasn't been answered until now is how did Tannenbaum swindle so many people with such ease And more crucially why did he do it Through extensive interviews with his family friends and numerous investors this book provides the startling answers to those questions For the first time the real motivation that fuelled South Africa's Bernie Madoff is laid bare

Demokrasi Hamish McDonald, 2015-01-06 Indonesia a nation of thousands of islands and almost 250 million people straddles the junction of the Pacific and Indian oceans Current President Susilo Bambang Yudhoyono has presided over 6 per cent average yearly growth of its economy to surpass 1 trillion If this rate continues Indonesia will join the world's ten biggest economies in a decade or so just behind the so called BRIC countries The much discussed recent documentary The Act of Killing revived some of its darker past and Barack Obama's reminiscences about the childhood years he spent there briefly shone the spotlight on a country many Americans know little about Yet as Indonesia approaches its 2014 parliamentary and presidential elections its future is wide open Though the largest Muslim nation by population it remains a receiver of wisdom from the Arab world rather than a messenger of multi religious tolerance Its pursuit of trade agreements with Japan and South Korea have burnished its economic ambitions but its diplomacy is long on so called soft power and short on sanctions or force So what does the future hold for this pivotal place Award winning Asia Pacific journalist Hamish McDonald's Demokrasi is an accessible and authoritative introduction to the modern history and politics of this fascinating

Lovelace (Jr.), 2015 Terrorism Commentary on Security Documents is a series that provides primary source documents and expert commentary on various topics relating to the worldwide effort to combat terrorism as well as efforts by the United States and other nations to protect their national security interests Volume 139 The Rise of China examines the strategic implications of China's increasing economic and military power for the international community Regional and global reactions to the growth of Chinese economic investment and property acquisitions are considered along with responses to

border disputes and other contentious regional issues The documents in this volume include several reports and studies prepared by the U S China Economic and Security Commission examining such topics as the evolving state of the overall military relationship between the U S and China the development of China s Navy China s establishment of an Air Defense Identification Zone ADIZ Chinese legal views on cyberspace and cybersecurity general trends in U S Chinese science and technology cooperation and the impact of Chinese economic development on the United States **Professional Journal of the United States Army** ,2014 *Essays on Iran and Israel: An Indian Perspective* ,2014-03-15 This book containing essays on themes relating to India s relations with Iran and Israel deals with issues that have been intensely debated in the country for some time now India s robust ties with both Iran and Israel bitter adversaries for more than three decades have intrigued West Asia watchers The essays herein highlight the parallel nature of India s engagements with the two countries and attempt to understand the critical concept of strategic autonomy that defines India s foreign policy postures on contentious issues The first five essays touch on the central drivers of India s Iran policy and discuss the limits on New Delhi s relations with the Islamic Republic The last three essays dealing with Israel highlight the significance of India s intervention on questions relating to Israel as well as Israel s inspirational connection with India With its unique treatment lucid analysis and unusual organisation this factually informed and policy oriented collection of essays on India Iran and Israel will be an extremely useful resource for scholars students policymakers and diplomats alike It will also interest business community involved with the West Asian region as well as any intelligent layperson looking for facts and figures on subjects discussed in the book **The Rhodesian Air Force in Zimbabwe's War of Liberation, 1966-1980** Darlington Mutanda,2016-11-22 This book evaluates the development of the Rhodesian Air Force during the Second Chimurenga or Bush War 1966 1980 Airpower in irregular conflict is effective at the tactical level because guerrilla warfare is not a purely military conflict The Rhodesian Air Force was deployed in a war winning versus a supporting role as a result of the shortage of manpower to deal with insurgency and almost all units of the Rhodesian Security Forces depended on its tactical effectiveness Technical challenges faced by the Air Force combined with the rate of guerrilla infiltration and the misuse of airpower to bomb guerrilla bases in neighboring countries largely negated the success of airpower *Nuclear Alliance Restraint* Dong Sun Lee,Iordanka Alexandrova,2025-02-05 This book examines why powerful states have varying success in restraining less powerful allies from acquiring nuclear weapons based on a broad range of historical case studies The outcomes of nuclear alliance restraint primarily depend on two structural factors the number of superpowers in the global system and the geographical distance between patrons and clients Through in depth case studies of South Korea North Korea China and Pakistan and a comprehensive analysis of 14 historical episodes the book demonstrates that restraint succeeds when there are two superpowers with one trying to rein in a distant ally Conversely restraint often fails with a single superpower in the system or when nuclear aspirants are close to their patrons This study has important implications for current

nonproliferation efforts since it suggests that a bipolar world with the United States and China as superpowers would enhance counterproliferation effectiveness reducing nuclear proliferation risks In addition an inducement centered approach adopted early on would be most effective for these superpowers in restraining their allied proliferators This book will be of much interest to students of nuclear proliferation foreign policy security studies and international relations

The Province of All Mankind Stephen Buono,2025-07-15 The Province of All Mankind is the story of a powerful idea about the cosmos Born in the science fiction literature of the nineteenth century and maturing in the Age of Apollo this idea held that outer space should be preserved as a sanctuary from human strife free from weapons warfare and political rivalry If humanity could somehow leave violence behind as it moved into space perhaps peace would finally reign Bucking a half century of space race scholarship Stephen Buono argues that despite waging a totalizing Cold War the United States achieved stunning diplomatic successes that heralded the cosmos as a realm of peace and cooperation The early story of space politics is not primarily one of militarization but rather of political prescience and restraint The Province of All Mankind demonstrates that space became a unique domain of American foreign relations and international law and provides lessons for the Second Cold War unfolding over the horizon

Blended Learning Solutions in Higher Education Neil Hughes,2024-09-24 Blended Learning Solutions in Higher Education explores the origins empirical foundations and implementation of blended learning in colleges and universities Since emerging as a third way solution to traditional and virtual higher education models blended learning has become a predominant learning modality in an era of rapid technological proliferation Offering an alternative to longstanding yet flawed methodologies and assumptions about its validity this book conceptualizes blended learning as a complex social practice mediated by knowledge institutional rules

policies and norms as well as material factors such as technology and physical spaces The book s original MIRACLE framework offers a research grounded highly practical guide to blended learning design improvement and long term efficacy From demystified history and heuristics to digitized platforms and course content to reimagined governance and regulations these insights provide a thoughtful exemplar of blended learning s challenges and affordances along with a firm basis for integrating face to face and online learning teaching and assessment innovatively and creatively *Building the Nation* Heather S. Gregg,2018-12 Building the Nation draws from foreign policy reports and interviews with U S military officers to investigate recent U S led efforts to nation build in Iraq and Afghanistan Heather Selma Gregg argues that efforts to nation build in both countries focused more on what should be called state building or how to establish a government rule of law security forces and a viable economy Considerably less attention was paid to what might truly be called nation building the process of developing a sense of shared identity purpose and destiny among a population within a state s borders and popular support for the state and its government According to Gregg efforts to stabilize states in the modern world require two key factors largely overlooked in Iraq and Afghanistan popular involvement in the process of rebuilding the state that gives the population ownership of the process and its results and efforts to foster and strengthen national unity Gregg offers a hypothetical look at how the United States and its allies could have used a population centric approach to build viable states in Iraq and Afghanistan focusing on initiatives that would have given the population buy in and agency Moving forward Gregg proposes a six step program for state and nation building in the twenty first century stressing that these efforts are as much about how state building is done as they are about specific goals or programs *Developing News* Jairo Lugo-Ocando,An Nguyen,2017-02-17 Constraints on media reporting Conclusion 6 Disempowering news The feminisation of development The feminisation of poverty Empowering women for less gender justice Gendered news practices 7 New technologies for old ideas An ICT driven new economy Technology as geopolitics Technology as colonial legitimisation Technology without politics 8 Malthusianism and news framing of population growth Shifting the blame Legitimising racism Malthusianism returns as the bell curve Towards a better news articulation of population issues Conclusion Beyond the North to South lecture Can the news media ever get to the core of development Us versus them propaganda What is being sold What is being missed Where to from here References Index *The Effectiveness of China's Industrial Policies in Commercial Aviation Manufacturing* Keith Crane,Jill E. Luoto,Scott Warren Harold,David Yang,Samuel K. Berkowitz,Xiao Wang,2014-04-03 This report assesses the effectiveness of China s industrial policies using China s commercial aviation manufacturing industry as a case study It evaluates China s efforts to create a national champion in this industry and analyzes foreign manufacturers efforts to protect key technologies when setting up production facilities there It also offers policy options for foreign governments responding to Chinese policies *Military Review* ,2013 *Global Developments in Public Infrastructure Procurement* Darrin Grimsey,Mervyn K. Lewis,2017-11-24 There is widespread acceptance of the

importance of infrastructure but less agreement about how it should be funded and procured While most public infrastructure is still provided in house or by traditional procurement methods with well researched strengths and weaknesses the development of service concession arrangements has seen a greater emphasis on lifecycle costing risk assessment and asset design as featured in a variety of public private partnership PPP delivery models This book examines the various procurement approaches and provides a framework for comparing their advantages and disadvantages Drawing on international experience it considers some of the best and worst examples of PPPs and infrastructure projects generally along with the lessons for improving infrastructure procurement processes 1968 Annual Supplement John B.
