L2 Education James P. Lantolf,Matthew E. Poehner,2014-03-05 Explicating clearly and concisely the full implication of a praxis oriented language pedagogy this book argues for an approach to language teaching grounded in a significant scientific theory of human learning a stance that rejects the consumer approach to theory and the dichotomy between theory and practice that dominates SLA and language teaching This approach is based on Vygotsky s sociocultural theory according to

which the two activities are inherently connected so that each is necessarily rooted in the other practice is the research laboratory where the theory is tested From the perspective of language education this is what is meant by the pedagogical imperative Sociocultural Theory and the Pedagogical Imperative in L2 Education Elaborates a new approach to dealing with the relationship between theory and practice an approach grounded in praxis the dialectical unity of theory and practice Presents an analysis of empirical research illustrating praxis based principles in real language classrooms Brings together cognitive linguistics and sociocultural theory the former provides the theoretical knowledge of language required of praxis and the latter furnishes the theoretical principles of learning and development also called for in a praxis approach Offers recommendations for redesigning teacher education programs Its timely focus on the theory practice gap in language education and its original approach to bridging it put this book at the cutting edge of thinking about Vygotskian sociocultural theory in applied linguistics and SLA **Introduction to Language Development, Third Edition** Sandra

Levey, 2022-09-15 Introduction to Language Development Third Edition offers a highly accessible overview to the complexities of language development The textbook is designed for use in language acquisition courses in undergraduate and graduate speech language pathology programs to facilitate both teaching and learning Complex terminology and theories are explained through definitions and examples to ensure that students are able to easily grasp the content Within the third edition of this text students are presented with language factors syntax semantics phonology morphology and pragmatics as well as the cognitive abilities that underlie language development Multilingual and multicultural differences are explored throughout Key Features Case studies allow instructors to involve students more fully in classroom discussion along with developing their critical thinking and problem solving skills Chapter learning objectives allow students to understand the scope and goals of the chapter Study questions allow instructors to engage students in discussions of the material and ensure students grasp and retain the information Tables and figures provide examples and evidence that elaborate and clarify the information presented A comprehensive glossary helps students locate the definitions of key terms New to the Third Edition Expanded focus on diversity and the role that culture plays in language learning Updated to reflect the increased impact of technology in literacy and learning Improved readability through the introduction of terminology concepts and practical strategies that will be encountered in chapters that follow The inclusion of new terminology that reflects patient centric language and updated terms that respect diversity of individuals served by speech language pathologists and audiologists Disclaimer Please note that ancillary content such as documents audio and video etc may not be included as published in the original print version of this book *Language Learning in Children Who Are Deaf and Hard of Hearing* Susan R. Easterbrooks, 2021 Language Learning in Children who are Deaf and Hard of Hearing 2nd Edition Theory to Classroom Practice is the long awaited revision of the only textbook on primary language instruction written with classroom teachers of deaf and hard of hearing children TODs in mind It builds on the work of the previous version while providing the reader with

access to the entire first version on a supplemental website An important feature of this book is that it describes four real TODs and demonstrates application of concepts discussed to the DHH children on their caseloads Up to date chapters on theory of language learning assessment and evidence based practice replace removed chapters Chapters on English and American Sign Language ASL structure and on the three major approaches listening and spoken language bilingual bimodal instruction and ASL instruction are updated The chapters on teaching vocabulary and morphosyntax how to ask and answer questions and writing language objectives for Individualized Education Plans IEPs are expanded DHH Specific examples of real cases are incorporated throughout the book Finally after a theoretical base of information on language instruction many of the chapter provide language teachers with specific examples of how to answer the question What should I do on Monday It avoids promotion of one or another philosophy presenting all and demonstrating the commonalities across classroom language instruction approaches for DHH children
