American Georgics Edwin C. Hagenstein,Sara M. Gregg,Brian Donahue,2011-01-01 From Thomas Jefferson s Monticello to Michelle Obama s White House organic garden the image of America as a nation of farmers has persisted from the beginnings of the American experiment In this rich and evocative collection of agrarian writing from the past two centuries writers from Hector St Jean de Crevecoeur to Wendell Berry reveal not only the great reach and durability of the American agrarian ideal but also the ways in which society has contested and confronted its relationship to agriculture over the course of generations Drawing inspiration from Virgil s agrarian epic poem *Georgics* this collection presents a complex historical portrait of the American character through its relationship to the land From the first European settlers eager to cultivate new soil to the Transcendentalist utopian and religious thinkers of the nineteenth century American society has drawn upon the vision of a pure rural life for inspiration Back to the land movements have surged and retreated in the past centuries yet provided the agrarian roots for the environmental movement of the past forty years Interpretative essays and a sprinkling of illustrations accompany excerpts from each of these periods of American agrarian thought providing a framework for understanding the sweeping changes that have confronted the nation s landscape *I Bring the Voices of My People*

Chanequa Walker-Barnes,2019-10-01 Disrupting the racist and sexist biases in conversations on reconciliation Chanequa Walker Barnes offers a compelling argument that the Christian racial reconciliation movement is incapable of responding to modern day racism She demonstrates how reconciliation s roots in the evangelical male centered Promise Keepers movement has resulted in a patriarchal and largely symbolic effort focused upon improving relationships between men from various racial ethnic groups Walker Barnes argues that highlighting the voices of women of color is critical to developing any genuine efforts toward reconciliation Drawing upon intersectionality theory and critical race studies she demonstrates how living at the intersection of racism and sexism exposes women of color to unique experiences of gendered racism that are not about relationships but rather are about systems of power and inequity Refuting the idea that race and racism are one size fits all *I Bring the Voices of My People* highlights the particular work that White Americans must do to repent of racism and

to work toward racial justice and offers a constructive view of reconciliation that prioritizes eliminating racial injustice and healing the damage that it has done to African Americans and other people of color
